Conditional Use Permit & Design Review.

City staff has scheduled a study session with the Planning and Zoning Commission to update the Commission on the planning process associated with the preparation of a new master plan for the St. Mary's College High School. The agenda also will provide an opportunity for review of the school's use of the athletic field. The master plan includes a number of proposed changes to the site that would require amendments to a previously approved conditional use permit (CUP 93-27). The Planning and Zoning Commission will make no final decisions regarding the master plan in the study session. One or more public hearings, will be scheduled with due notice, when the application is ready for final action.
