

## Candidate Statement

Peter Maass

Occupation: Incumbent

Over the past four years it has been my privilege to serve on the Albany City Council. As current mayor, I have worked collaboratively with the Community and Council. In doing so, the shoreline is safer and cleaner than it has been in many years. The assisted living facility, supermarket, and other retail of the UC project are finally under construction and expected to be finished next year. Strong environmental principles have been incorporated into our General Plan and will guide Albany's future development for the next twenty years. If reelected, I will focus on our affordable housing crisis, climate change and its repercussions, completing the Pierce Street Park and the transition of the Bulb into the McLaughlin State Park and on keeping our City financially solvent. I have a daughter at Albany High, and with my background in teaching, I am committed to the continuing strong relationship between the City and the School District. For my actions on the Council as well as my service on the Alameda County Transportation Commission and Waste Management Board I have been endorsed by the Sierra Club. I ask for your vote to continue serving on the Albany City Council.
