FIVE CONCLUSIONS FROM OUR FIRST TWO MEETINGS

1. We can fit all of the desired uses onto the Gill Tract Area designated by the 2004 Master Plan for Recreation/Open Space uses
2. Everyone has to compromise something
3. The University is okay with an urban farm use, as long as space for the community center is preserved, so that housing can be built on the area below the Gill Tract
4. It is important that the “natural look” at the corner of SPA and Buchanan remain
5. An urban farm would be best suited along the creek and along Buchanan, due to proximity with the school
