

Albany Bicycle Master Plan Update-Albany Pedestrian Master Plan

Questions and answers at the Pre-Proposal Meeting-January 15, 2009

1. Do you want two separate environmental documents for each plan?

No. Since both plans are expected to be developed at the same time and there are many areas where they overlap, one environmental document can cover both plans.

2. Would you disclose the budget for this work?

The contract range is \$125,000-\$145,000

3. Do you have sidewalk repair location electronically?

The City has an Access database of sidewalk repairs from 2006 to date. Prior years repairs are only available as hard copy.

4. Do you have digitized maps of ramp locations?

The City has curb ramps in AutoCAD format. Vehicle collisions, pedestrian and bicycle collisions (up to 2007) maps and the zoning map are available in Arc GIS 9.2.

5. Would you be looking for two separate teams to conduct each plan?

While the City reserves the right to do so, it is preferable to have one consulting team developing both plans.
