September 21, 2011

Ed Tubbs, Fire Chief  
Albany Fire Department  
1000 San Pablo Blvd.  
Albany, CA 94606

Dear Chief Tubbs:

Section 12.3(d) of the Emergency Medical Services First Responder Advanced Life Support and Ambulance Transport Services agreement between the City of Albany and Alameda County states: "Contractor shall replace or remount ambulances on a five-year, 250,000 mile schedule unless otherwise agreed to in writing by Contractor and County."

In your e-mail dated September 20, 2011, you stated that you wish an exception to that section so that ambulances may be replaced or remounted on a ten-year, 250,000 mile schedule.

In consideration of the fact that the ambulance call volume in Albany is significantly lower than that of most other cities in the county, I agree that this is a reasonable request. According to the provisions of Section 12.3, the requirement is hereby modified as requested.

Sincerely,

N. Dale Fanning  
Contract Administrator
