WORK SUMMARY

Date : **7/3/2012**

We propose to recondition the Heron sculpture (3 sections) by doing the following:

- Strip all paint and loose rust from sculpture
- Paint bare metal with "rust converter"
- Weld in patches where necessary to cover up holes in sculpture and grind smooth
- Apply primer and two coats of finish coat

Notes: We intend to bring all materials, tools and supplies on a daily basis, and leave nothing on site overnight. There will be some minor fumes associated with the stripping of paint and refinishing. We will erect signage to advise people to stay clear.

Price: There is a large unknown factor as regards the sculpture's condition, due to hidden conditions. The price listed below is, in our opinion likely to cover 95 percent of the possible outcomes. In the event that it is not sufficient, additional work will be billed at the following rates:

Painting: \$54/hr.
Metalwork: \$90/hr.

Price: \$6,650

Prices good for sixty days. Payment due within 30 days of receipt of invoice. Buyer agrees to pay 1.5% per month interest and all reasonable collection fees on overdue balance.
