

Help Create Complete Streets in Albany

San Pablo Avenue & Buchanan Street

The City of Albany, in partnership with the Local Government Commission, is hosting several community design workshops to explore ways to make it easier and safer to walk, bike, ride the bus, and drive along San Pablo Avenue and Buchanan Street.

Renowned walkable communities expert Dan Burden will lead these public events. A multi-disciplinary team, led by Nelson\Nygaard Consulting Associates, will help translate your input into detailed designs that balance the needs of all modes and users of all ages and abilities.
