

NEW!

BAG-A-BAG

**Recycle plastic bags
within your recycling container
for curbside collection!**

Here's how:

1 Recycle your clean, flexible, stretchable plastic bags. (*Grocery, dry cleaning, sandwich, bread & produce bags, bubble wrap, the thin plastic used to package toilet paper, paper towels, etc.*)

2 Gather the loose bags into one bag and self-tie the bag. Place it in the recycling container. Do not use rubber bands, twist ties or tape.

3 **PLEASE DO NOT:** Throw single plastic bags into the recycling container — they can blow away.

It's as easy as **1, 2, 3**
to recycle
your
plastic bags.

Just bag them before putting them
in the recycling container.

Follow the directions on the other side.
