**RESOLUTION NO. 2016-59**

**A RESOLUTION OF THE ALBANY CITY COUNCIL CONFIRMING THE  
DIAGRAM AND ASSESSMENT AND LEVYING ASSESSMENTS IN THE  
OPEN SPACE, RECREATIONAL PLAYFIELD AND CREEK RESTORATION  
ASSESSMENT DISTRICT NO. 1996-1 FOR FISCAL YEAR 2016/17  
(Pursuant to the Landscaping and Lighting Act of 1972)**

**WHEREAS**, on April 7, 2014, pursuant to Chapter 3 of the Landscaping and Lighting Act of 1972 (Streets and Highways Code Section 22620), the Council approved Resolutions #2014-33 and #2014-34 directing NBS to prepare the annual reports, for three consecutive years, concerning the levy and collection of assessments within the assessment districts for LLAD No. 1988-1 and 1996-1; and

**WHEREAS**, On June 6, 2016 the Council adopted Resolutions #2016-33 initiating proceedings, Resolutions #2016-35 preliminarily approving the Engineer's Report for FY 2016/17, and Resolution #2016- 37, declaring the Intention of the Council to levy and collect assessments, and setting July 5, 2016 as the date for the public hearing for each District in the meeting place of the City Council, 1000 San Pablo Avenue, Albany, CA; and

**WHEREAS**, in the report of the Engineer, assessments are not proposed to increase over the amount for the previous year; and

**WHEREAS**, notice of the hearing was given in the time and manner required by law; and

**WHEREAS**, at the public hearing held on July 5, 2016, the City Council afforded every interested person an opportunity to make a protest to the annual report either in writing or orally, and the City Council considered each protest;

**NOW THEREFORE, BE IT RESOLVED** that the City Council hereby confirms the diagram and assessment, as set forth in the annual report of the Engineer of Work for the 2016/17 fiscal year; and

**BE IT FURTHER RESOLVED** that the City Council hereby levies the assessments as set forth in the report of the Engineer for fiscal year 2015/16; and

**BE IT FURTHER RESOLVED** that the City Clerk is authorized and directed to immediately file the Engineer's Report for Assessment District No. 1996-1 for the 2016/17 fiscal year together with a certified copy of this resolution with the Alameda County Auditor.

## RESOLUTION NO. 2016-59

PASSED AND APPROVED BY THE COUNCIL OF THE CITY OF ALBANY,  
the 5th day of July, 2016, by the following votes:

AYES: Council Members Barnes, McQuaid, Nason, Pilch and Mayor Maass

NOES: none

ABSENT: none

ABSTAINED: none

RECUSED: none

WITNESS MY HAND AND THE SEAL OF THE CITY OF ALBANY, this  
6th day of July, 2016.

Eileen Harrington  
DEPUTY CITY CLERK

*The City of Albany is dedicated to maintaining its small town ambiance, responding to the needs of a diverse community, and providing a safe, healthy and sustainable community.*

# 1. EXECUTIVE SUMMARY

The City of Albany (the "City") directed NBS Government Finance Group, DBA NBS, to prepare and file a report presenting plans and specifications describing the general nature, location and extent of the improvements to be maintained, and an estimate of the costs of the maintenance, operations, and servicing of the improvements for the City of Albany Open Space, Recreational Playfield, and Creek Restoration Assessment District No. 1996-1 (the "District") for Fiscal Year 2016/17 pursuant to the provisions of the Landscaping and Lighting Act of 1972, Part 2, Division 15 of the California Streets and Highways Code (commencing with Section 22500) (the "Act").

The report includes a map of the District, showing the area and properties proposed to be assessed, an assessment of the estimated costs of the maintenance, operations and servicing of the improvements, and the net amount to be assessed upon all assessable lots and/or parcels within the District in proportion to the special benefit received.

The following table summarizes the annual levy by category of parcel for Fiscal Year 2016/17:

| <b>Category</b>      | <b>Number of Parcels</b> | <b>Levy Total(1)</b> |
|----------------------|--------------------------|----------------------|
| SFR                  | 3,721                    | \$256,879.40         |
| Condominiums         | 1,078                    | 55,775.72            |
| MFR 2-20 Units       | 415                      | 82,644.06            |
| MFR > 20 Units       | 6                        | 8,797.50             |
| Commercial           | 272                      | 99,463.74            |
| Industrial           | 9                        | 2,689.44             |
| Industrial > 2 acres | 2                        | 3,000.70             |
| <b>Total:</b>        | <b>5,503</b>             | <b>\$509,250.56</b>  |

(1) Total amount may vary slightly due to rounding adjustments

## 2. OVERVIEW

### 2.1. Introduction

---

On November 5, 1996, the voters of the City of Albany approved Measure "R," an advisory measure that ratified the prior formation of an assessment district created for the purpose of funding the acquisition of open space on Albany Hill, creating recreational play fields and restoring creeks. On January 4, 1999 the Albany City Council adopted Resolution 99-1. This resolution determined that the estimated cost of the land to be acquired and the improvements to be made was greater than could be conveniently raised from a single annual assessment and provided for annual assessments to be collected in installments over a period not to exceed 21 years. In February 1999 the City issued bonds in the amount of \$6,230,000. The bond sale yielded \$5,456,347, which was deposited into the improvement fund.

Measure R provides that the assessment district revenues be allocated as follows:

- One half (50%) to the acquisition and improvement of open space
- One fourth (25%) to the acquisition and improvement of recreational playfields
- One fourth (25%) to the acquisition and improvement of creek restoration projects

Accordingly, the initial amounts available in the respective improvement funds were:

- Open Space, \$2.782 million
- Playfields, \$1.364 million
- Creek Restoration, \$1.364 million

The improvements to be made in the District are generally described as follows:

- Acquiring, improving, and maintaining open space on Albany Hill
- Acquiring, improving, developing, and maintaining recreational playfields
- Restoring creeks to a clean environmentally healthy condition

### 3. DESCRIPTION OF IMPROVEMENTS

The improvements for the District include the following:

#### Albany Hill Open Space

The acquisition of interests in real property for permanent open space on Albany Hill together with studies and projects that will serve to maximize the value of the open space to the property owners in Albany.

The proposed projects for Albany Hill open space will "expand opportunities for environmental outreach and educational programming involving schools, service organizations, neighborhoods, and volunteers." Projects in general will serve to:

- Protect, maintain, and enhance the natural features, native vegetation, and wildlife habitats of the site;
- Protect cultural resources, improve basic services to make the site safe and accessible; and
- Provide simple amenities that respect the character of the site, educate the user, and allow for the appreciation and enjoyment of the site.

The following parcels of land on the southerly and easterly slopes of Albany Hill have been acquired to date:

| APN                       | Description              | Approx. Area | Year Purchased | Approximate Cost |
|---------------------------|--------------------------|--------------|----------------|------------------|
| 66-2758-1 thru 66-2758-10 | End of Madison St.       | 1 acre       | 1997/98        | \$270,000        |
| 66-2756-1 thru 66-2756-64 | Between Jackson and Taft | 4 acres      | 1998/99        | \$1,360,000      |
| 66-2755-97                | Between Jackson and Taft | 1 acre       | 1999/00        | \$280,000        |

In 1998 the City purchased one acre at the end of Madison (the Willis property) for \$270,000 and four acres between Taft and Jackson (the Burke property) for \$1,350,000 plus \$10,000 for environmental analysis. In 1999 the City purchased an additional acre between Taft and Jackson in the amount of \$270,000 plus \$10,000 environmental analysis from Lands Ends.

Other sites that have been considered, include approximately 11 acres located near Pierce Street at the end of Gateview and Hillside Avenues (assessor's parcel number 66-2760-10-7). Approximately five acres that are contiguous with existing public or private open space, contiguous with parcels subject to purchase as open space, are in private ownership and considered private open space, or are located in the public right of way. The location of the open space on Albany Hill that has been acquired to date and sites that may be considered for acquisition in the future are shown in Section 4.

Consideration was given to expending some funds for repairs to Catherine's Walk (formerly Sunset Walk). These repairs were made with other funds in 2010. This project consisted of replacing the old patchwork of wood and concrete stairs and bare soil with a new pedestrian walkway between Washington Street and Hillside Avenue near Polk Street. A survey was completed and the architect (Beals Group) had previously prepared a conceptual landscape design and budget estimate.

In FY 2002/03, the Council authorized \$20,000 for the design and construction of a new ADA compliant driveway at the trailhead on Pierce Street. Primary funding for this project was through a Safe Routes to School grant for the construction of a sidewalk on Pierce Street.

Consideration was given to using some of the funds for the future acquisition of a portion of the former freeway and off-ramp for Passive Park and open space use, but this land was eventually acquired with other funds.

In FY 2010/11, \$50,000 was allocated for updating the Albany Hill Master Plan. The update was completed in FY 2011/12, and on February 6, 2012 the Council approved the Albany Hill Creekside Master Plan.

The updated plan provides a long-term vegetation management plan with an emphasis on fire prevention as well as trail maintenance and improvement plan. The draft plan also takes into consideration the City's adopted Integrated Pest Management (IPM) Policy.

The overall objectives of the updated access and circulation portion of the plan are to maintain the existing trails (with no additional trails recommended), improve circulation with relatively minor trail improvements, and develop a maintenance plan that includes an annual inspection of the trails and trail amenities such as benches, steps, and signs. Nearly all of the recommendations from the 1991 Albany Hill Creekside Master Plan remains in the 2012 updated Plan with the addition of more detailed trail maintenance and erosion control recommendations.

The updated Vegetative Management Plan was approved by the Council in 2012 and funds were allocated in the budget for FY 2012/13 and FY 2013/14. Fifty thousand dollars was allocated in each year for projects which included fuel supply reduction, butterfly monitoring, native plant protection, integrated pest management, signage, invasive plant reduction, and trail improvements. An additional \$50,000 was allocated for fire management and hazard abatement as outlined in the Master Plan Update.

Continued use of the District funds for fire management and hazard abatement will be necessary. Beginning in FY 2014/15, \$50,000 per year has been allocated for these purposes.

The Albany Hill Creekside Master Plan was also completed in 2012. This plan provides a long-term plan that emphasizes fire prevention, removal of invasive/non-native plants, and protection of sensitive habitat and will improve the trail experience through improved access and circulation.

Overall, as of June 2013 it was projected that there will be approximately \$2.1 million in the open space fund and approximately 15 acres of undeveloped potential open space land on Albany Hill.

### **Recreational Playfield**

Playfield improvements will consist of constructing baseball, softball, soccer, or other recreational fields. The work will include but not be limited to clearing, grading, planting, constructing backstops and goals, restroom facilities, parking improvements, curb gutters, paving, planting, irrigation, lighting, and fencing improvements and include the maintenance of the foregoing.

Pierce Street Park In the late 1990's the City Council authorized, with a vote of the neighbors of the Pierce Street area, to eliminate the building of a sound wall and small pocket park and proceed with phase one design for a 4.5-acre park located on the former freeway on and off ramps at Pierce Street, north of Washington Avenue and east of Cleveland Avenue. In Fiscal Year 2000/01 the City prepared conceptual plans and preliminary right of way documents for the acquisition and construction of play fields, parking, and open space at this location. In the winter of 2001 the State of California Department of Transportation (Caltrans) prepared the grading and drainage plans for phase one of the project. The City obtained additional funding through Caltrans to cover unanticipated construction costs for the earthwork project. Earthwork commenced with funds from the freeway project (i.e., at no cost to the City) in the summer of 2002. The City and Caltrans executed a cooperative agreement for purchase/lease of the park area and an additional lease of airspace for a parking lot under the existing 1-80 interchange along Cleveland Ave.

In February of 2003 the City introduced AB 929 which would have required Caltrans to transfer the land as originally intended. The Senate Transportation Committee directed Caltrans to negotiate with the City. In the spring of 2011 the City successfully completed negotiating with Caltrans and on May 12, 2011 the State Transportation Commission authorized the land to be dedicated to the City. The

City acquired fee title to the property in June of 2011. The City, in FY 2011/12, selected a consultant to prepare a preliminary design of a maintenance center, park, and path on this site.

Alternative plans for the Maintenance Center and park improvements including the extension of the Pierce Street Path to Washington Street were prepared by the Consultant retained by the City. On May 6, 2012 the Council authorized the City Manager to execute a purchase agreement with the owners of 540 Cleveland Ave. (the former Western Forge and Flange site) to develop a City Maintenance Center at this location. This decision will allow additional area within the Pierce Street parcel to be dedicated for recreational use.

University Village In FY 1998/99, the City began discussions with officials from the University of California, the City of Berkeley and local youth sports organizations regarding the possible acquisition, development, and maintenance of recreational playfields on University owned property in Albany and Berkeley. The site is bounded by the University Village on the east, the Union Pacific railroad tracks on the west, the City of Berkeley (and Codornices Creek) on the south, and the USDA property on the north.

The goal is to lease land from the University of California and relocate two existing little league fields currently located near San Pablo Avenue. Land used by the existing little league field is proposed for commercial development and student housing. Because of the need to preserve Albany's playfields, this project involves a lease arrangement, development, and maintenance of new playfields. Some of the issues surrounding the project include funding, negotiating with UC Berkeley for land lease, and user schedules and conditions on field operations and maintenance.

In fall of 2001, the University elected to open up the Gill Tract for development and to relocate the ball fields to this new location. In January 2003, the University selected a development team to design and build the commercial portion, new student housing, and community facilities. A schematic plan for this site has been prepared in conjunction with the UC Village development project. Formal negotiations with UC Berkeley are underway. In late 2004, the University of California placed this project on hold.

In 2005, the City Council approved the reallocation of \$650,000 from the contingency for sports fields' projects that could have potentially helped to fund this project. The funds were earmarked for field rehabilitation at Memorial and Ocean View Parks. Construction began in the summer of 2007 and was completed in 2009.

Ocean View Park Since 2004, the Ocean View Park playfield has been maintained by the Albany Little League. In Fiscal Year 2006/07 this service began being funded by the City under Landscape and Lighting Assessment District 1988-1.

### **Creek Restoration**

Creek restoration improvements will include the demolition and removal of existing culverts and drainage improvements and replacement with open channels lined with vegetation. The work will include demolition, excavation, grading, planting, irrigation, constructing trails or pathways, and lighting systems together with the maintenance of the improvements.

Codornices Creek Restoration Plan This project is located along the south side of the University Village between San Pablo Avenue and the Union Pacific Railroad right of way. The goal of this project is to return this segment of Codornices Creek to as natural a condition as possible. Features would include a meandering stream, removal of culverts, planting of native vegetation, installation of a bicycle/pedestrian path, and bridges.

In 1999 the Codornices Creek and Recreational Playfields Schematic Master Plan was approved by technical committee. In late 1999, and then again in early 2001, the City Council authorized a total of

\$41,500 toward preparation of a report for "Lower Codornices Creek - Evaluation of Design Alternatives" by Waterways Restoration Institute. Equal contributions were made by the City of Berkeley and the University of California, Berkeley. In May of 2001, a field review was conducted by Caltrans as a prerequisite for grant funding. In February 2001, the environmental document was begun through a contract with Design, Communities and Environment. Because of modifications in 2002, to the University Village plans (e.g., relocation of ball fields to Gill Tract, changes to creek right of way), this delayed the environmental document. In the spring of 2004, the draft was completed and on May 17, 2004, the City Council certified the Mitigated Negative Declaration.

A grant of \$97,000 was received from Caltrans for trail planning and \$100,000 from the Coastal Conservancy for project management, design, and hydrology studies.

In the fall of 2002, a grant for \$985,000 was received from the Department of Water Resources to complete engineered drawings and begin construction of the project. The improvements between Fifth Street and the Railroad were constructed in the fall of 2004 and between Fifth and Sixth Streets in Fiscal Year 2006/07. In Fiscal Year 2007/08, a contract was approved for improvements along the U.S. Post Office property. In Fiscal Year 2010/11 for the Phase III improvements between 6th and 8th Streets were successfully completed. These improvements included a multi-use trail along the Post Office property.

Approximately \$5,000 of expenses for preparation and review of final documentation of the right of way and survey for the Phase III grant were incurred in Fiscal Year 2012/13. The City will finalize the easement with United States Post Office and the University of California and a budget of \$5,000 in Fiscal Year 2013/14 has been allocated for this task.

A rain garden (Clean-water Improvement) for the stretch between 6th and 8th Streets was completed in Fiscal Year 2013/14 with grant funds.

The City received a grant in Fiscal Year 2011/12 to retain Restoration Design Group (RDG) to prepare a design for the 8th to 10th Street section of Codornices Creek. The grant covers RDG expenditures on the design and planning only. Approximately \$20,000 of District funds were allocated in FY 2013/14 and FY 2014/15 for the City's expenses related to the development of the plans.

A portion of the decomposed granite path that was installed with Phase I has been eroded by the creek in 2010. Resource Design Group designed a repair for this section. Approximately \$15,000 was budgeted in FY 2013/14 for construction. This failed section is on the Albany side of the creek and under the Memorandum of Understanding between the City of Albany/City of Berkeley/University of California it is the City of Albany's responsibility to make this repair.

Codornices Creek Restoration - Creekside Apartments In April 1998, the Planning and Zoning Commission approved a 16-unit affordable housing project called Creekside Apartments. As a condition of approval, Resources for Community Development (RCD), the non-profit developer agreed to grant an easement to the City for access and restoration of the adjoining creek between Kains Avenue and San Pablo Avenue. The apartments were occupied in February 2000. RCD offered for dedication, the easement for creek conservation, flood control and public access as required. The offer of dedication has since been recorded. The offer of dedication was obtained at no cost to the City. City staff and the City Engineer prepared the right of way documents for this transaction.

The goal of the creek project is to realign and restore this open concrete channel segment of Codornices Creek to as natural a condition as possible. Features would include: removal of the concrete channel (bottom and sides); meander the stream where possible; plant native vegetation; and provide public access.

A contract has been entered into with WRI (\$31,000) for survey, landscape plans, structural engineering, geotechnical engineering review, landscape architecture, construction plans, permitting, and project management.

Plans were prepared in the spring of 2002. Construction of the improvements and acceptance of the offer of dedication of the easement is pending verification of full funding for the project and final agreement with the City of Berkeley regarding public access, maintenance, and the maintenance road design.

The City of Berkeley was approached in Fiscal Year 2003/04 regarding providing conceptual approval of the creek enhancement plan. An estimate for design services was obtained in 2007 and funding was discussed with Berkeley. A contract was entered into with Restoration Design Group in 2008 and design has begun.

Negotiation with the City of Berkeley regarding shared responsibility for construction and maintenance are ongoing. Correspondence received in May of 2011, indicated a willingness on the part of Berkeley to proceed with this project.

The City of Berkeley is developing a project on this section and budget in the amount of \$5,000 was allocated in Fiscal Year 2013/14 and Fiscal Year 2014/15 to cover City expense related to the time review and coordination with the City of Berkeley.

Cerrito Creek Pathway and Creek Restoration The stretch of Cerrito Creek, between San Pablo Avenue and Pierce Street, including the parallel path and portions of Albany Hill, were subject to significant disturbance when the Berkeley sewer replacement project replaced the main sewer line that runs parallel to the creek. The City of Berkeley restoration activities have been initiated on the creek side of the existing pathway, per their original mitigation plans and agreement with the City of Albany.

During this time a working group was initiated by the Albany City Administrator to investigate the potential opportunities offered by this work. The working group included representatives from the cities of Albany, Berkeley, El Cerrito, and Richmond, Friends of Albany Hill, Friends of Five Creeks, Bayside Commons, Orientation Center for Blind, and the Albany Park and Recreation Commission. The working group's goal, as stated in the final report, was to: Restore Cerrito Creek and design a means of access between Pierce Street and San Pablo Avenue that recognizes the competing needs of natural habitat, both aquatic and terrestrial, pedestrian and bicycle access, and safety considerations.

Preliminary recommendations, a listing of opportunities and constraints, and a map illustrating some alternative pathways are included in the final report of the working group.

In early 2002, a \$100,000 Association of Bay Area Governments (ABAG) Bay Trail grant was received from the California Coastal Conservancy to determine an acceptable bicycle/pedestrian route from El Cerrito Plaza to the Bay Trail. A consultant was hired to prepare a set of alternatives. Three joint community workshops were held by the cities of Albany, El Cerrito, and Richmond. In late 2002, the consultant finalized a set of alternative routes which were then presented to various city commissions. In December 2003, the City Council accepted the feasibility study and authorized follow-up studies, including the connection along Pierce Street and adjacent to Bayside Commons. The follow-up studies for Pierce Street were completed and approved in late 2004. In 2011 the portion of the trail along the 500 Block of Pierce Street was completed.

In the spring of 2004, a representative of the Bayside Commons Homeowners Association (HOA) contacted the City staff with regard to the City's acquiring fee title to the creek right of way. A survey of the property to be transferred was performed in Fiscal Year 2004/05 and legal description was prepared in Fiscal Year 2005/06.

In FY 2011/12, the City and the Bayside Commons HOA Board working cooperatively, negotiated and subsequently approved an easement agreement which clarified and perfected the rights, responsibilities and locations of the City Trail and Sanitary Sewer Easement over this property.

Beginning in FY 2006/07, removal of non-native species by Friends of Five Creeks was funded by Measure "R". A line item was included in the budget for FY 2007/08 and FY 2008/09 and this activity continues to be funded by the District.

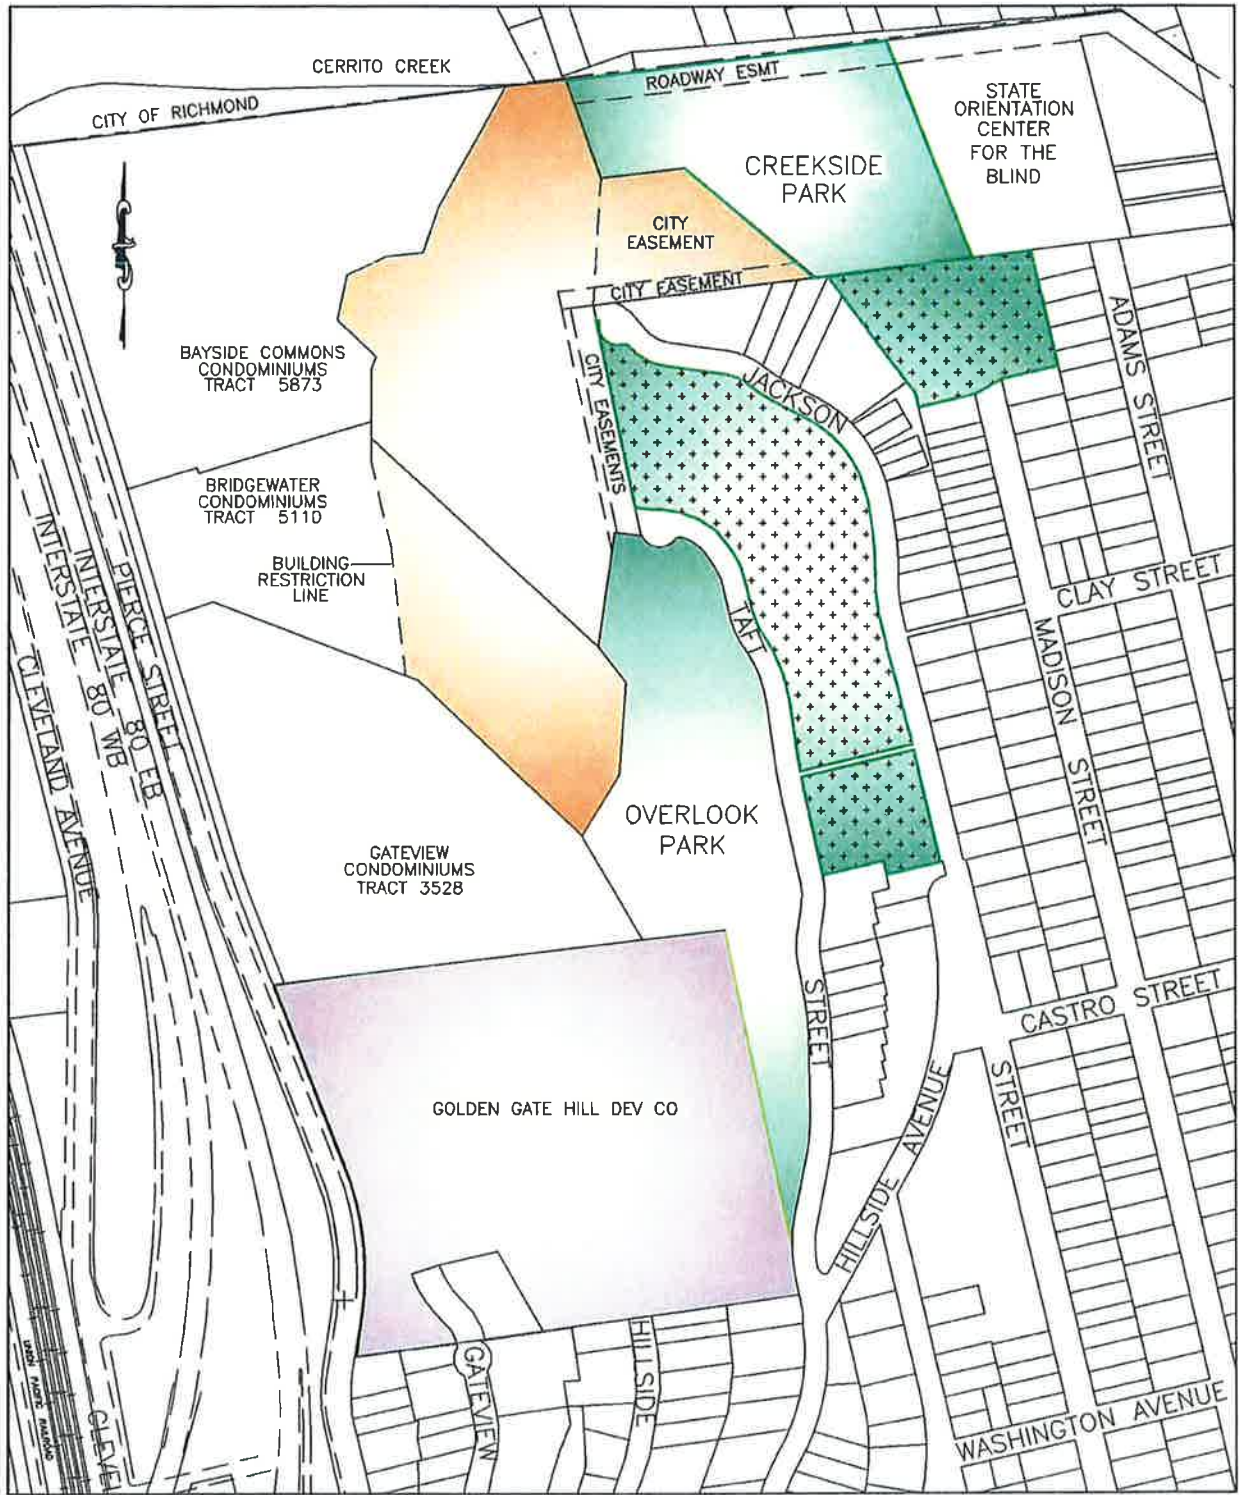

Planning concerning a pedestrian bridge is pending completion of the new Master Plan.

Codornices Creek and Village Creek – Target Development In FY 2003/04 the City conditioned Target, the developer of the former Union Pacific parcel along Eastshore Highway, to dedicate to public use conservation easements over Codornices and Village Creeks between the railroad right of way and Eastshore Highway. Construction of public access improvements and habitat enhancement is possible for this segment of the creek, pending environmental report, review and availability of funding. Target also was required to fund a creek management plan. The City of Berkeley has been approached about enhancing the Berkeley side of Codornices Creek. The two Cities are working on a long term plan for this segment of the creek. The City entered into an agreement with Resources Design Group in 2007 and the plans are nearly complete. One hundred percent draft plans were expected to be completed by August of 2008. Funding for construction is proposed to be accomplished by a grant. In 2011, the City of Berkeley requested to take the lead on this project.

It is assumed that the City of Berkeley will be moving forward with this project and \$5,000 was allocated in FY 2013/14 and FY 2014/15 for review and coordination with the City of Berkeley.

## 4. OPEN SPACE

The following page contains a map of the location of the open space on Albany Hill that has been acquired to date and sites that may be considered for acquisition in the future.

City of Albany  
Assessment District No. 1996-1

Albany Hill Open Space  
& Park Acquisition Sites

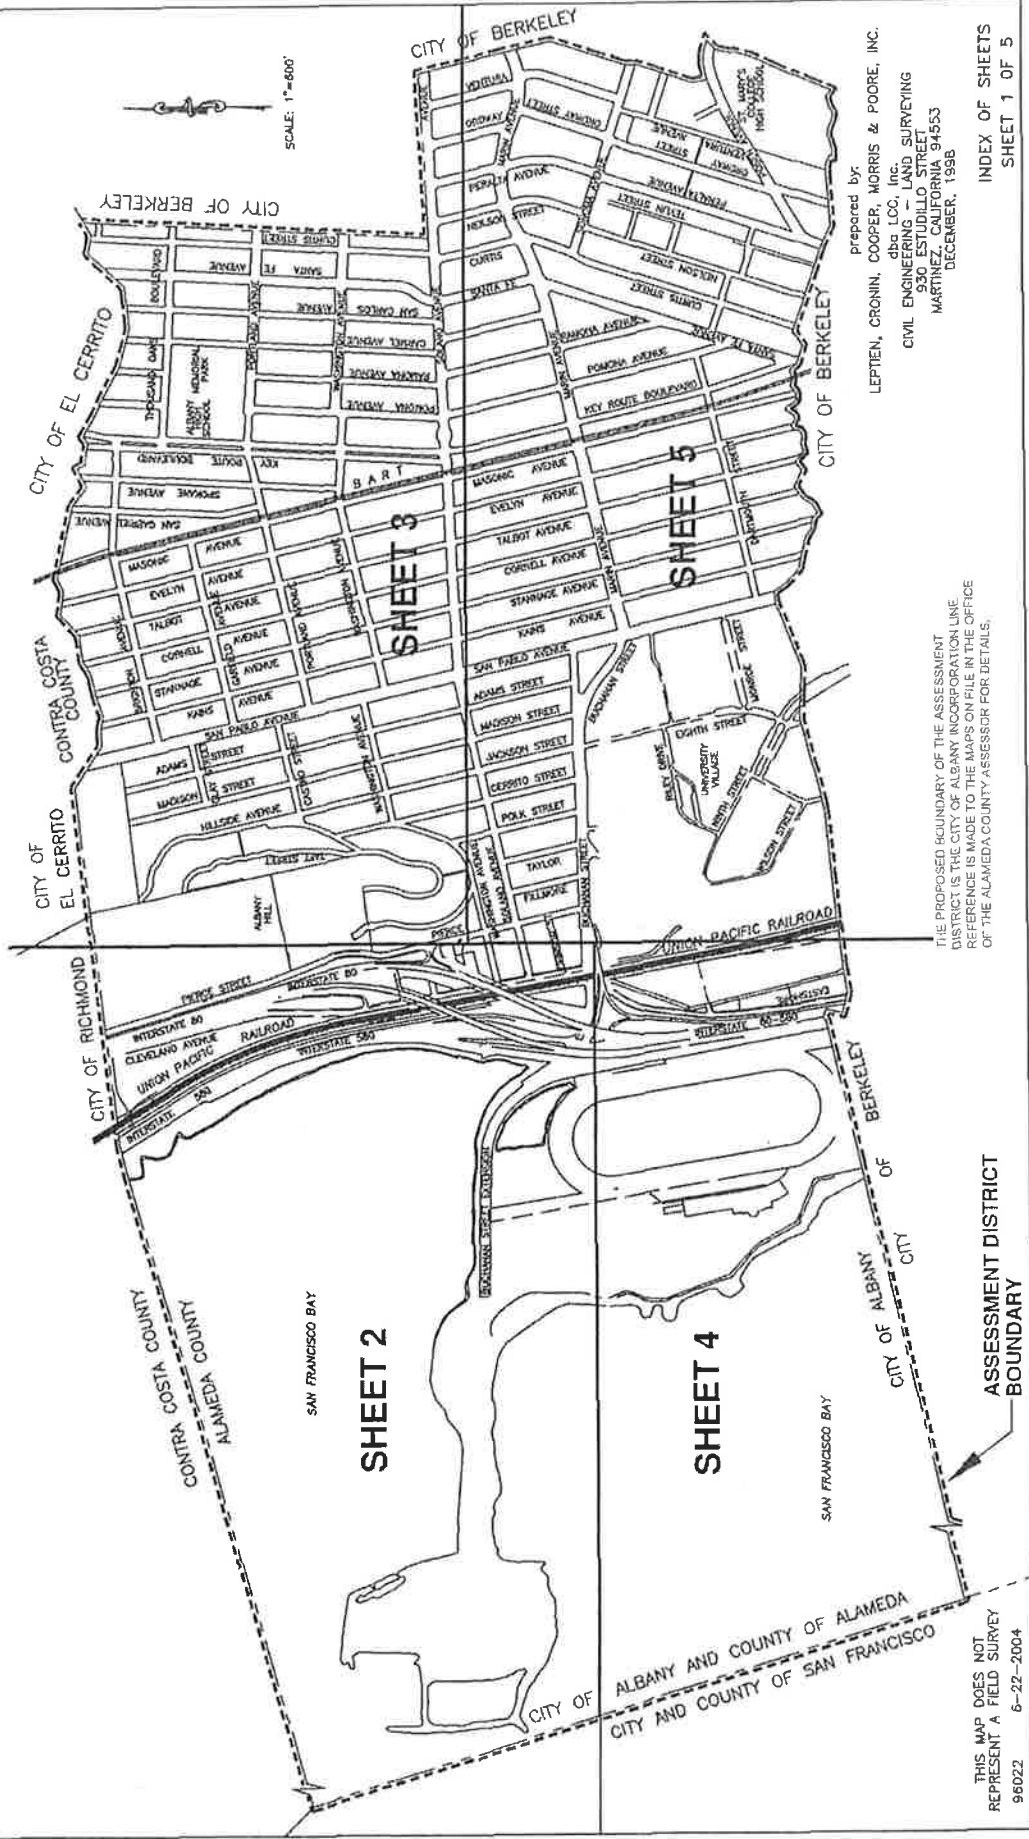

-  City Trail/Open Space Easements( = 2 acres)
-  City Open Space - Measure R ( = 6.6 acres)
-  City Park - Prior to Measure R ( = 9 acres)
-  Private Open Space ( = 11 acres)
-  Private Undeveloped Parcel ( = 11 acres)

## 5. ASSESSMENT DIAGRAM

The following page contains a copy of the assessment diagram for the District.

**ASSESSMENT DIAGRAM  
 CITY OF ALBANY OPEN SPACE,  
 RECREATIONAL PLAYFIELD AND CREEK RESTORATION  
 ASSESSMENT DISTRICT NO. 1996-1  
 COUNTY OF ALAMEDA, STATE OF CALIFORNIA**

THE PROPOSED BOUNDARY OF THE ASSESSMENT DISTRICT IS THE CITY OF ALBANY INCORPORATION LINE. REFERENCE IS MADE TO THE MAPS ON FILE IN THE OFFICE OF THE ALAMEDA COUNTY ASSESSOR FOR DETAILS.

## 6. METHOD OF ASSESSMENT

*The following information is from the original formation report approved by the City Council.*

The estimated net cost of the improvements has been divided among the parcels of land within the District in proportion to the estimated benefits to be received by the parcels, respectively, from the improvements.

Benefits from open space, playfield, and creek restoration improvements may be said to be proportionate to the proximity of the improvement to a parcel. However, there are offsetting factors which diminish the significance of this parameter. While benefits tend to increase with diminishing distance to the open space or park facility there is an inverse relationship created by the nuisance factor (increased traffic, etc.) which grows when living or working close to these improvements. Thus the benefit of living close to the park or open space tends to be offset by the increased pedestrian and vehicle traffic that results. In terms of "view", parcels further from the Hill benefit more from the acquisition and maintenance of open space than do parcels that are close to the Hill. Albany is one and a half miles square. The proposed improvements in the aggregate are reasonably distributed throughout the City. For example, the five creeks (Codornices, Village, Marin, Middle, and Cerrito) traverse the City from east to west and upon development could form linear "greenways" across the City. In summary, the location of a parcel has not been considered as a factor in determining benefit received from creek, open space, and playfield improvements in this report.

The benefits to be received from the acquisition, maintenance of open space on Albany Hill, and of recreational playfields throughout the City, and of the restoration of creeks may be classified as "passive" and "active". Passive benefit in this report indicates the increase in value of the land that will accrue to a parcel irrespective of its use. This passive benefit is a function of the land area. Active benefits in this report, refer to the improved quality of life that will be derived from the improvements on a day to day basis. In general the variation in active benefits received by a parcel, respectively, from the various improvements may be said to be proportional to building area. Building area is generally proportionate to the use of the land by either the number of persons who inhabit the parcel or the number of persons employed. The opportunity to benefit from the open space on Albany Hill, the recreational playfields or the benefits associated with creek restoration is proportionate to the number of persons who dwell or work at the site.

In order to determine the relative value of passive (land) benefit to active (user) benefit it is helpful to list the benefits to be gained. The following table lists the improvement and the benefits estimated to be received from that improvement. The table further identifies the benefit as being either passive (land) or active (user). For simplicity we assign equal value to each category.

### Albany Hill Open Space

| Benefit  | Passive | Active |
|--|---------|--------|
| Preserves open space including cultural artifacts, plants, and animals as a permanent feature of the land  | X       |        |
| Provides educational opportunities for studies of historical artifacts, native plants, wildflowers, monarch butterflies, birds and other animals |         | X      |
| Serves as an important environmental feature which the community will be known for   | X       |        |
| Maintains a high standard of livability and sound economic conditions by increasing open space, park and recreational opportunities              |         | X      |
| Increases underlying property values   | X       |        |
| Makes the City a more attractive place to live and locate business and enhances quality of life  |         | X      |
| Provides recreational opportunities to all residents and employees   |         | X      |
| Improves overall quality of communities-safe places for children to play and provides relief from traffic and urban congestion                   |         | X      |
| Improves air quality   |         | X      |

### Playfield

| Benefit   | Passive | Active |
|---|---------|--------|
| Provides recreational opportunities (especially for children)   |         | X      |
| Maintains high standard of livability   |         | X      |
| Increases property values   | X       |        |
| Makes the City a more attractive place to live and locate business and enhances quality of life   |         | X      |
| Improves environmental quality of life on a day to day basis  |         | X      |
| Provides safe places for children to play, increases recreational opportunities, improving overall quality of community and provides pleasant places for residents to enjoy |         | X      |

### Creek Restoration

| Benefit  | Passive | Active |
|--|---------|--------|
| Permanent restoration of and preservation of creeks to a clean, healthy condition  | X       |        |
| Minimizes daily pollution in the San Francisco Bay and creeks by opening underground pipes to achieve clean water in creeks and the Bay  |         | X      |
| Maintains a high standard of livability by increasing property values and recreational opportunities   | X       |        |
| Increases attractiveness of District as place to locate businesses, including improving commercial sites located near creeks, thereby increasing the City's local tax base and providing pleasant creek side pedestrian-oriented shopping areas            |         | X      |
| Confers a direct and special benefit to all parcels within the District, including without limitation increased attractiveness, improved environmental quality, enhanced recreational activities, each resulting in maintained or enhanced property values |         | X      |
| Provides recreational opportunities to all residents of District and protects water quality  |         | X      |
| Improves overall quality of our communities, provides pleasant places for residents to enjoy and increase recreational opportunities   |         | X      |

The determination as to whether or not a benefit is passive or active is admittedly subjective and simply represents the original engineer's opinion. Others may categorize the benefits differently. On balance however, it is reasonable to say that approximately 1/4 or 25% of the improvements benefit the underlying land and 3/4 or 75% are more related to the day to day use of the property.

## **6.1. Equivalent Residential Units**

---

### **Single-Family Residential**

The average lot area and building area for detached single family residential (SFR) parcels in the City are 5,140 square feet and 1,242 square feet, respectively. Approximately 57% of the parcels in the City are detached SFR parcels. Although the individual lot and building areas for SFR parcels vary, it is reasonable to assume that the benefit received by these parcels is essentially the same. SFR parcels have been assigned a single unit of benefit. This single unit is referred to in this report as an Equivalent Residential Unit (ERU).

### **Multi-family Residential**

A lot area and building factor was determined for each use by dividing the respective area for each by the corresponding value for an average SFR unit. A total factor called the "area factor" was then computed by adding the weighted lot and building factors. Because multi-family residential ("MFR") parcels have less lot area per unit than do SFR units it is assumed that a corresponding increase in need for recreation and open space results. This need for open space is measured by a factor called the "population factor" which is the ratio of the average population of an SFR unit to a MFR unit per the census. ERU(s) for the various categories of MFR use were computed by multiplying the area factor by the population factor. These values varied from 0.88 ERU for a condominium to 0.74 for apartments containing five or more units.

Additionally MFR units may be said to benefit the same despite small variation in lot or building areas. Therefore, all MFRs and condominiums will be assessed 0.75 ERU for the first 20 units. Additionally, because apartment complexes tend to experience vacancies from time to time, units above 20 are assessed at 0.50 ERU.

### **Commercial and Other Land Use**

Commercial and industrial land also benefits from the open space, playfield, and creek restoration improvements. These properties share in the increase in underlying land values that may be attributed to these enhancements. Albany Hill has been and will continue to be a landmark for which the community will be known. It is conceivable that the creek restoration and enhancement program will have similar benefits. These landmarks are and will continue to be of value to the business as well as the residential community.

The availability and opportunity to use recreational playfields, greenways for hiking, biking, relaxing, and cohabiting with nature are of significant value. They make the City a better place to live and work. This increase in the day to day quality of life is of significant value in attracting top quality candidates for employment to live and work in Albany. Recreation and playfields will provide employees with the opportunity to participate in adult baseball and programs. They will provide fields for the children of employees. Moreover, these fields will provide diversions for children in general, who, if otherwise unoccupied, might roam the streets and adversely impact the quality of the business districts. Finally, sponsorship of soccer and baseball programs by local businesses is a unique means for businesses to advertise and invest in the community at the same time.

The estimated benefits to be received from the improvements by commercial and other non-residential land (with the exceptions noted below) have been determined by computing ERUs for each parcel. Commercial ERUs have been calculated by 1) dividing a parcel's land area by 5,140 square feet and multiplying this value by 0.25 and 2) dividing the parcel's building area by 1,242 square feet and multiplying this value by 0.75 and then summing these two values.

## Exceptional Parcels

Parcels owned by Public Agencies were not assessed. Utilities were assessed only to the degree that they benefit. The following parcels were assumed not to benefit and were not assessed: railroad tracks and churches. The assessment for condominium common areas was considered as included in the assessment for the individual condominiums and common areas were not assessed. The land area (LA) for non-residential parcels of 1 acre or more was discounted by 20% for an equivalent public (street) use. Parcels having less than 0.50 unit of assessment were assessed for 0.50 units. The Golden Gate Fields Racetrack, owned by Magna Entertainment Corporation (MEC), was considered to be an exceptional parcel and was assessed according to judgment of the original engineer as discussed below.

The method utilized to calculate ERUs for commercial and other non-residential land use is difficult to apply to the large parcels owned by MEC which comprise and surround the Golden Gate Fields Race Track. Strict application of the 25% lot area of 75% building area formula to these properties yielded 1,177 ERU's. Assigning zero value to those portions of the lots which were submerged reduced the number of ERU's to 517. The assessment formula computes a relatively low assessment for the race track because of the relatively low proportion of building area. The race track facilities generate significant land use, however as evidenced by a June 1995 traffic study which indicates that the peak hour traffic volume on Buchanan Street is approximately 1,800 trips. This volume is attributed primarily to the track and is roughly equivalent to traffic generated by 1,800 single family homes. Land area alone is clearly not a suitable indicator of the user benefits derived by the track.

An equivalent building area may be assigned to the grandstand, track, and infield based on the number of parking stalls. It is estimated that there are approximately 2,500 parking stalls in the complex. A 400 square foot requirement per stall for general commercial use is required by the Albany Municipal Code. The building area represented by 2,500 stalls using this ratio is 1,000,000 square feet. Applying the formula  $0.75 \text{ BA}/1,242$  yields 603 ERUs. According to records obtained from City Planning, the non-submerged land area is approximately 149.6 acres. Using the formula  $0.20 \text{ LA}/5140$  this land area represents 254 ERUs. The total ERUs for land area plus the equivalent building area is 857.

The total MEC assessment was assigned to the three parcels identified with a use code of 9900 (racetrack) in proportion to land area. The remaining MEC lands were assigned a zero assessment.

## 6.2. Assessment Rates

The following table is a summary of assessment rates by land use.

| Land Use             | Annual Assessment   |
|----------------------|---|
| SFR                  | \$69.00   |
| Condominiums         | 51.75   |
| MFR 0-20 units       | 51.75/ unit   |
| MFR > 20 units       | 1,035 + 34.50/unit over 20  |
| Commercial           | $69.00 \times ((0.25(\text{LA}/5140)) + ((0.75(\text{BA}/1242)))$ |
| Industrial           | $69.00 \times ((0.25(\text{LA}/5140)) + ((0.38(\text{BA}/1242)))$ |
| Industrial > 2 acres | $69.00 \times ((0.20(\text{LA}/5140)) + ((0.38(\text{BA}/1242)))$ |

SFR = Single-Family Residential (Detached)

MFR = Multi-Family Residential Units (includes 2<sup>nd</sup> units, duplex, triplex, fourplex, and apartments)

OTHER = Commercial and other land use not including public or tax exempt properties

LA = Lot Area

BA = Building Area

Minimum Parcel assessment for any parcel is \$34.50

## **7. ESTIMATE OF COSTS**

The following pages contain the estimate of costs and debt service schedules for the District.

CITY OF ALBANY, CALIFORNIA  
ASSESSMENT DISTRICT 1996-1  
Estimate of Costs Fiscal Year 2016/17

|  | 2014/2015<br>Budget | 2014/2015<br>Projected | 2015/2016<br>Proposed | 2016/12017<br>Proposed |           |
