Subject: Support for Res. No. 2017-48 Supporting Paris Climate Agreement

To all Albany City Council Members:

I am writing to add my support for Resolution 2017 on the June 19 Council agenda and for the staff recommendation that Albany should support the Paris Climate Agreement and join the Climate Mayors organization. The threat of climate change is real. Without federal leadership at this time, it is even more important than ever for local and state governments to take action.

Thank you.
