March 19, 2018

Honorable Mayor and Members of the City Council

Staff is pleased to submit the FY2017/2018 – FY2021/2022 Five Year Capital Improvement Plan (CIP) for your review and consideration. This is a comprehensive document intended to be a guide for important planned infrastructure and capital investments throughout the community.

The five-year plan represents an update to the 2016 – 2020 Capital Improvement Plan. Work proposed in that plan included several new projects that are now completed or underway. This plan continues the work put forth two years ago, and proposes several new projects that will be discussed herein.

This document reflects the feedback provided to staff at the January 2018 study session held by the City Council including the addition of a street light assessment project and the Masonic/Marin Intersection Improvements Project.

The five-year CIP is in line with the City's General Plan, Strategic Plan as well as current and projected funding sources. Implementation of sidewalk, sewer, and street projects as well as other planned work will continue to be a significant effort for staff.

Respectfully Submitted,

Nich Alg

Nicole Almaguer City Manager

#### CAPITAL IMPROVEMENT PLAN

#### PURPOSE, GOALS, AND OBJECTIVES

The Capital Improvement Plan establishes the capital projects that the City will endeavor to develop and complete in 2018 to 2022. The capital projects are chosen by the City Council to reflect its priorities and the strategies established in the 2016 Strategic Plan. The goal of the CIP is to establish a plan for development and implementation of multiple capital projects over the next five years to further city wide and departmental goals including building new park and open space resources, rehabilitating aging city facilities, replacing aged equipment, and investing in sewer, storm drain and street inventory. A key part of this plan is to layout funding resources for each project. This report will include a description of available funding sources including fund balances and restrictions, project descriptions, and a schedule for project implementation.

#### **TERMS**

#### **Appropriation**

The CIP uses an appropriation/encumbrance system to track individual project and fund balances.

- Appropriation: Funding is made available for a project by resolution of the City Council.
   Council actions may be for an individual project or through the adoption of the CIP.
   Appropriations are valid for the life of the project or until council takes further action.
- Encumbrance: The process used to reserve funds when a purchase requisition or contract is finalized, but funds are not yet paid out as an expense.

#### <u>Project sponsor/Project Manager Roles</u>

Project Sponsor: The Project Sponsor is a key internal stakeholder responsible for developing project criteria, providing conceptual design review, and providing project information to Council during the planning phase.

Project Manager: The Project Manager is responsible for project implementation during the planning, design, and construction phases. This will include establishing and running project

meetings, acquiring necessary permits, CEQA compliance, hiring and managing consultants and contractors.

#### **Fund Designations**

Special Reserve Fund: Fund used for a specific purpose such as Police, Fire, Parks/Recreation, etc. This can be funded through the General Fund or specific fees, taxes, or grants.

Enterprise Fund: Fund used for a specific purpose such as sewer/storm maintenance. This can be funded through local fees and taxes.

General Fund: Fund used for general city revenue. Can be used to allocate funds to Special Reserve Funds, Enterprise Funds, Operating funds, or debt service.

#### PROJECTS OVERVIEW

In 2016 council adopted a five-year Capital Improvement Plan with \$31.26 million in capital funding, of which \$7.58 million was grant funded and \$6.46 million has been spent. Approximately \$1.2 million of the spent funds were grant funded. Completed projects are shown in Table 1.

#### **TABLE 1 COMPLETED PROJECTS**

Maintenance Center	Ocean View Park Drainage Improvements
Community Center Mechanical Unit	Memorial Park Drainage Improvements
Replacement	
Civic Center Improvements/Repairs	Citywide Website Upgrade
Cable TV Control Room HVAC	Cable TV Broadcast Software
Buchanan/Marin Utility Undergrounding	Network Server Replacement
Enterprise Software Upgrade	Pierce Street/Peggy Thomsen Park
Police Mobile Data Communication Upgrade	Ohlone Greenway/Senior Center Crosswalk
Dartmouth Tot Lot Improvements	Safe Route to School – Marin/Curtis
Adam Street Sewer Rehabilitation	Buchanan/Marin Bikeway Phase III

Projects included in the CIP typically include projects over \$25,000 or that have a useful life of more than five years. Project categories include:

- Buildings/Facilities
- Parks/Trails/Creeks
- Community Development

- Streets/Pedestrians/Bikeways
- Sewer and Storm Drain
- Major equipment

Projects are selected and ranked against criteria including:

- Safety
- Legal Mandate/Regulatory Compliance
- Cost/Benefit
- Community enhancement

The proposed CIP 2018-2020 Update includes approximately \$40 million of work in the following categories.

CATEGORY	CATEGORY TOTAL
Buildings/Facilities	\$1,255,000
Parks/Trails/Creeks	\$3,526,000
Community Development	\$34,000
Streets/Pedestrian/Bikeways	\$21,055,000
Sewer/Storm Drain	\$11,347,000
Major equipment	\$2,835,000

There are twelve new projects with a total proposed cost of approximately \$2.9 million.

NEW PROJECTS	NEW PROJECT COSTS
Bus Stop Parklet (10003A)	\$10,000
Public Art (10001)	\$34,000
Rectangular Rapid Ped. Beacons (25004)	\$67,000
Buchanan Bikeway Phase IV (25002)	\$600,000
Civic Center HVAC (51004)	\$114,000
Street Lighting Evaluation (25008)	\$200,000
EV Charging Stations (51005)	\$80,000
Red Curb City Wide (25005)	\$44,000
Marin/Masonic Intersection Improv. (25007)	\$590,000
Traffic Calming Citywide (25001)	\$325,000
San Pablo Cycletrack Extension (25009)	\$721,000
Dartmouth Bicycle Crossing (25003)	\$124,000

#### **FUNDING OVERVIEW**

The City uses a mix of local taxes, local and regional transportation grant programs, community block grants, and state tax revenue to support its projects. Regional, State, and Federal funding are important sources of funding for the CIP. Several projects are currently unfunded but have planned funding sources based on future funding cycles and anticipated future revenues of \$6.9 million.

PROJECT	FUNDING SOURCE	UNFUNDED	COMMENT
		AMOUNT	
Police Cycle Storage	General fund year-end	\$150,000	Based on Council
	surplus		action
Civic Center HVAC	General fund year-end	\$73,000	Based on Council
	surplus		action
Complete Streets San	Active Transportation Plan	\$4,200,000	Call for projects in
Pablo/Buchanan	grant, Transportation		May 2018;
	Development Act fund		Applications due
			July 2018
Masonic/Marin Intersection	Active Transportation Plan	\$550,000	Call for projects in
Improvements	State grant		May 2018;
			Applications due
			July 2018
San Pablo Cycletrack	Measure BB (Streets/Roads	\$721,200	Apply for funding in
Extension	and Bike/Ped); TFCA Grant		2020 budget
Fire Fleet Replacement	Fund 2203 – Fire Fleet	\$1,015,000	Purchase of new
	Equipment Reserve		engine is schedule
			for 2022. Staff will
			be evaluating
			various funding
			options

Many of these funding sources will require the lead agency to fund a portion of the project with a local funding match. Staff will recommend a matching source and amount at the time of grant application; which will require a corresponding adjustment to the CIP.

The Civic Center HVAC Project, and Police Cycle Storage Project are currently listed as unfunded. Staff recommends that the FY 16/17 surplus be used, in part, to fund these two projects.

#### REGIONAL, STATE, AND FEDERAL FUNDING SOURCES

Albany uses a mix of local taxes, local and regional transportation grant programs, community block grants, and state tax revenue to support its projects. Regional, State, and Federal funding are important sources of funding capital improvement project. Each revenue source (including administrative restrictions on usage) is described below.

#### COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) - FUND 1405

CDBG is a federal grant program designed to benefit low- and moderate- income people to support community development projects that address an urgent threat to health or safety. CDBG funds can be used for community development activities (such as real estate acquisition, relocation, demolition, rehabilitation of housing and commercial buildings), construction of public facilities and improvements (such as water, sewer, and other utilities, street paving, and sidewalks), construction and maintenance of neighborhood centers, and the conversion of school buildings, public services, and economic development and job creation/retention activities. CDBG funds can also be used for preservation and restoration of historic properties in low-income neighborhoods. Prior funding, nationally, has been used for public infrastructure, housing, planning, public services, economic development, and property acquisition. This grant program is a competitive program. Currently, Albany has one capital project funded through CDBG – Safe Routes to School for \$23,900. Local funding is used for curb ramps and other accessibility project components. CDBG funds are also used for operating expenses such as the Berkeley Food and Housing Project.

#### TRANSPORTATION DEVELOPMENT ACT (TDA) - FUND 1107

California established the TDA fund in 1971 to promote regional and public transportation coordination. TDA established two funding sources; the Local Transportation Fund (LTF), and the State Transit Assistance (STA) fund. Providing certain conditions are met, counties with a population under 500,000 (according to the 1970 federal census) may also use the LTF for local streets and roads, construction and maintenance. The STA funding can only be used for transportation planning and mass transportation purposes.

• LTF - Local Transportation Fund (LTF), is derived from a ¼ cent of the general sales tax collected statewide. The State Board of Equalization, based on sales tax collected in each county, returns the general sales tax revenues to each county's LTF. Each county then apportions the LTF funds within the country based on population.

STA - The STA funds are appropriated by the legislature to the State Controller's Office
(SCO). The SCO then allocates the tax revenue, by formula, to planning agencies and other
selected agencies. Statue requires that 50% of STA funds be allocated according to
population and 50% be allocated according to transit operator revenues from the prior
fiscal year.

TDA is a competitive program. Albany has one project funded by TDA – Safe Routes to School for \$31,400. Annual TDA funding is typically \$14,000. This funding can be carried over into subsequent years for larger projects with approval from MTC.

#### MEASURE B - FUNDS 1101 & 1102

Measure B is a county grant funded through a half-cent sales tax to delivery transportation improvements and services. The Alameda County 20-year Transportation Expenditure Plan guides the expenditures of more than \$1.4 billion in county transportation funds. The Expenditure Plan was developed to serve major regional transportation needs in Alameda County and to address congestion in every major commute corridor in the county.

Regional priorities are to:

- Expand mass transit
- Improve highway infrastructure
- Improve local streets and roads
- Improve bicycle and pedestrian safety, and
- Expand special transportation for seniors and people with disabilities

Albany receives Measure B direct local distributions to meet these regional priorities through established transportation programs.

Albany receives funding for local street and road improvements – Annual Street Rehabilitation, Transportation Planning, and Washington Avenue Traffic calming; and for bike and pedestrian improvements – Annual Sidewalk Program, Ohlone Greenway, Masonic Sidewalk, and North Albany Traffic Calming. The city receives approximately \$400,000 for local streets and roads and \$40,000 for bicycle and pedestrian related improvements.

#### MEASURE BB - FUNDS 1201 & 1202

In 2014, Alameda County voters approved Measure BB, authorizing an extension and augmentation of the existing transportation sale tax (Measure B). The 2014 Transportation Expenditure Plan (2014 TEP) guides the investments of Measure BB revenues toward capital projects and programs that improve the countywide transportation system. Priorities are to:

- Expand BART, bus, ferry and rail services.
- Keep fares affordable for youth, seniors and people with disabilities.
- Provide traffic relief by improving local streets and roads and highway corridors.
- Improve air quality and provide clean transportation by expanding bicycle and pedestrian paths and the regional rail network.
- Create good jobs within Alameda County by requiring local contracting and supporting community developments that improve access to jobs and schools.

As part of the 2014 TEP, local agencies including Albany receive Measure BB direct local distributions to support these transportation investments. Albany received approximately \$400,000 in local street and road funding and \$40,000 in bicycle and pedestrian related improvements. This funding is used for both city operational costs and capital projects.

#### VEHICLE REGISTRATION FEES - FUND 1104

Vehicle Registration fee revenue is collected by the state and distributed to public agencies to:

- plan, design, construct improvements to public streets and highways as well as maintenance and operation of public streets and highways
- Various other purposes described by statute such as rail based transit

Albany receives approximately \$70,000 in vehicle registration fees each year for these two purposes. Projects funded by vehicle registrations fees include the Annual Street Rehabilitation Projects and Washington Avenue Traffic Calming. The fund balance is \$81,409.

#### GAS TAX - FUND 1105

Gas tax revenue is collected by the state and distributed to public agencies and cities to plan, design, construct improvements to public streets and highways as well as maintenance and operation of public streets and highways. Albany receives approximately \$300,000 each year for local streets and roads. Projects funded by gas tax revenue include the Annual Street Rehabilitation Projects, Buchanan Bridge Resurfacing, traffic sign replacements, the Buchanan/Marin Utility Undergrounding, and the Safe Routes to Schools project. A portion of Gas Tax revenue is used for operational costs. The fund balance is currently \$816,253.

#### SENATE BILL 1 – FUND 2009

The Road Repair and Accountability Act of 2017 (SB1) was passed into law in April 2017 to support the state's transportation network. The bill creates the Road Maintenance and Rehabilitation Program to address deferred maintenance on the state highway system and local street and road systems establishes a program to allocate funds. An annual allocation of

\$320,000 is anticipated through this program. In October 2017, Council approved staff to proceed with the rehabilitation of a portion of Evalyn Avenue between Garfield and Portland. Future SB1 funding will support the Street Rehabilitation Program.

#### EAST BAY REGIONAL PARK (MEASURE WW) - FUND 1404

Measure WW was passed by voters in 2008. The Measure extends Measure AA to help the Park District preserve open space. As of 2016, the City has received \$183,750 from Measure WW. Projects receiving funding from Measure WW include: Ocean View Park Rubber Surface, Albany Waterfront Enhancement Project, Dartmouth Tot Lot Rubber Surface, and Jewel's Terrace Rubber Surface.

#### SAFE ROUTE TO SCHOOL - FUND 1108

This fund receives funding from the state's Safe Route to School grant program and is used for pedestrian and safety improvements around school sites. Additionally, grants may include an educational component.

#### 1996 ASSESSMENT DISTRICT (MEASURE R) - FUNDS 2302, 2303 &2304

In 1996, Albany formed a Landscape and Lighting Assessment District (LLAD), to fund acquisition, improvement and maintenance of open space on Albany Hill, recreational playfields throughout the City, and creek restoration. Also, in 1996, the voters approved Measure R, an advisory measure which expressed support for the LLAD and called for allocation of the proceeds as followers: (1) 50% for the acquisition, improvement and maintenance of open space on Albany Hill; (2) 25% for the acquisition, improvement, and maintenance of recreational playfields; and (3) 25% for creek restoration and maintenance.

In 1999, the City issued \$6.23 million in improvement bonds secure by the LLAD revenues. These bonds will be repaid in 2019. The City is holding a substantial fund balance (approximately \$1.7 million) allocated for acquisition, improvement, and maintenance of open space on Albany Hill. This assessment district has three funds for capital projects: Fund 2302 - Open Space, Fund 2303 Playfields and Fund 2304 Creek Restoration.

#### 2008 CIP SIDEWALK PARCEL TAX - FUND 1305

This fund is used exclusively for sidewalk improvement projects. It is funded through a voter approved parcel tax.

#### CABLE TV - FUND 1402

This fund is used for equipment to support public broadcasting provided by the City. This fund receives fees of approximately \$36,000 annually from cable broadcast companies. No projects or equipment are anticipated for the next five-year period. When equipment needs are identified that exceed \$25,000 they will be included in CIP updates.

#### PUBLIC ART - FUND 1403

This fund is used for programs and projects related to permanent public art projects. In 2016 Council approved the Public Art Projects Plan and is used as the guiding document for new projects.

#### STORM DRAIN/NPDES FUND - FUND 1601

This fund is used for revenues and expenditures for programs and activities used to prevent non-point source pollution including storm drain system improvements and sewer rehabilitation projects. In accordance with the city's Sewer and Storm Water Code (Chapter 15-4.9) revenues from this fee shall be used for enforcement, implementation, and administrative overhead associated with the Urban Runoff Clean Water Program or associated documents including the Watershed Master Plan.

#### GENERAL OBLIGATION BOND (2003) - FUND 2001

This fund contains proceeds from the General Obligation bond issuance of 2003. The balance of this fund, as of November 2, 2017 was \$579,700. The Pierce Street Park improvements is the last project to be funded from this fund.

#### GENERAL OBLIGATION BOND CIVIC CENTER (2007) - FUND 2003

This fund contains proceeds from the General Obligation bond issuance of 2007. The proceeds from this issuance is to be used for the structural improvements of the Fire Department, Police Department and City Hall buildings.

#### MEASURE F STREET AND STORM DRAIN FUND - FUND 2006

This fund is used for street maintenance and storm drain improvements and is funded through a local parcel tax authorized by Measure F. This fund had revenue of approximately \$1 million in FY17.

#### GENERAL CAPITAL PROJECTS - FUND 2007

This fund is used for general capital projects including the Maintenance Center, city fleet replacement, and Ohlone Greenway/Masonic Sidewalk. It is funded from General Fund "set aside" funding.

#### EQUIPMENT RESERVE - FUND 2201

This fund is used for the replacement of equipment purchased by the General Fund for general city use.

#### POLICE EQUIPMENT RESERVE - FUND 2202

This fund is used for the replacement of Police Equipment including vehicles.

#### FIRE FLEET/EQUIPMENT RESERVE - FUND 2203

This fund is used for the replacement of Fire vehicles and equipment.

#### EMS EQUIPMENT - FUND 2204

This fund is used for EMS Equipment and is managed by the Fire Department.

#### INFORMATION SYSTEM RESERVE - FUND 2206

This fund is used for department specific and city-wide software and information system improvements. No capital projects are planned for the five-year planning period.

#### SEWER CAPITAL PROJECTS - FUND 4002

This fund is used for sewer rehabilitation projects as well sewer operations projects. It is funded through usage fees collected on the property tax bill.

# CAPITAL IMPROVEMENT PLAN FISCAL YEAR 2017/2018 – FISCAL YEAR 2021/2022

## SECTION 1:

## **COMMUNITY IMPROVEMENTS**

#### 2018 thru 2022

## City of Albany, California

Project # 10001

Project Name PUBLIC ART

**Department RECREATION & COMMUNIT** Type Beautification

**Useful Life** 

Category COMMUNITY IMPROVEME

**Project Sponsor** Human Services **Project Manager** Human Services

Status Active

#### **Description**

Total Project Cost: \$34,034

The public Art Ordinance establishes a mechanism for funding public art throughout the city requiring that certain public and private construction projects either include a public art element or provide an in-lieu fee for public art elsewhere.

Contact Human Services Program Mgr

**Priority** 5 Future Consideration

The fee is imposed on projects requiring a building permit. Any public or private development with a construction cost greater than \$300,000 must include a Public Art Component equal to 1.75% of the total construction costs. If there is not a possible public space for Public Art at the project site, the development must then contribute 1.75% of project costs to the Art in Public Places Fund.

Staff plans to install an art installation in the Ohlone Greenway in 2018.

#### **Justification**

Public art supports economic development, attracts business, new residents and tourists. Well executed public art can be a tremendous source of pride, and create a sense of place, a focal point and destination.

On April 4, 2016 the Council approved the Arts Committee's first Public Art Projects Plan (PAPP). The PAPP allocates \$32,500.00 of Art in Public Places Funds to the creation of Public Art as part of the Ohlone Greenway Improvement project. The Ohlone Greenway Public Art Projects are in progress and estimated to be completed by June 30, 2018.

Expenditures		2018	2019	2020	2021	2022	Total
Construction / Improve	ments	32,500	1,000				33,500
	Total	32,500	1,000				33,500
Funding Sources		2018	2019	2020	2021	2022	Total
1403 PUBLIC ART		32,500	1,000				33,500
	Total	32,500	1,000				33,500

#### **Budget Impact/Other**

As of December 1, 2016, the estimated balance in the Art in Public Places Fund is \$90,800, not including \$30,000 assigned to the Art fund from the Public Works Maintenance Center Project.

Art Fund 14319098 402236 – \$32,500.00 for Ohlone Greenway public art projects:

•Creek art \$7,500 FY2017/18

Play Sculpture at San Gabriel \$25,000 – FY2017/18

Project # 10002

Project Name BUCHANAN / MARIN UTILITY UNDERGROUNDING

**Department TRANSPORTATION PLANNI** Type Bikeways **Useful Life Contact** Transportation Planner

**Project Sponsor** Transportation Planning **Project Manager** Public Works

Status Active

#### **Description**

Total Project Cost: \$49,225

This project involves the undergrounding of dry utilities from San Pablo Avenue to Masonic Avenue using PG&E Rule 20A funds.

Rule 20A is a PG&E tariff program that allows a jurisdiction to underground its utilities using a portion of the customer's electric bill. The cost of the undergrounding of utilities will be reimbursed to the City by the utility companies through reimbursement agreements with the City. The utility companies make an initial reimbursement payment that is a portion of their share. The remaining share is distributed based on construction progress percentages. Reimbursements total \$3,874,000.

**Priority** 4 Community Enhancement

The Construction phase of this project started in June 2017 and will extend through January 2018. The last phase of the utility undergrounding project is the removal of aerial structures and poles, which will be done in phases by utility companies and will take place throughout 2018.

This project is being constructed along with Project 24004 (Buchanan Marin Bikeway Phase III) because it is cost effective to implement the two projects together. This project cost is \$1,769,000

Expected project completion construction phase: Jan 2018 Expected completion Pole removal phase: December 2018.

#### **Justification**

In 2010 the City Council created the Buchanan/Marin Overhead Utility District along the north side of Buchanan Street from Pierce to San Pablo Ave. and on both sides of Marin Avenue from San Pablo Ave. to Masonic Ave. pursuant to Electric Rule 20A and Telecommunications Rule 32. The City accumulated enough "work credits" under Rule 20A to underground the segment from San Pablo Ave. to Masonic Ave. The Rule 20A program reimburses all the expenses related to undergrounding the overhead utilities at minimal or no cost to City.

Status Active

Total Project Cost: \$10,438,650

#### **Description**

The City of Albany's Public Works Department is responsible for the repair and maintenance of approximately 29.4 centerline miles of pavements. Streets for rehabilitation are selected using the Street Saver program that is distributed and coordinated by Metropolitan Transportation Commission (MTC). Streets are periodically evaluated and assigned a pavement condition index (PCI) through a Pavement Management Technical Assistance Program (P-TAP). Based on the MTC report, the average PCI for the entire City network was 56 and improved to 60 after the completion of the City's 2015 pavement improvements. In 2015, PCI values for cities in Alameda County range from 56 to 85. Albany's PCI is in the bottom quartile of cities.

The purpose of the Annual Street Rehabilitation Program is to maintain and improve the pavement condition in the City. Priority streets, based on the 2015 assessment, include portions of Cornell, Dartmouth, Talbot, Solano, Ramona, Ordway, Santa Fe, Key Route, and Cleveland Avenue. Timing of these and other priority street will be determined through coordination with other utility improvements to reduce community disruption and protect the city's investment. In 2018 and 2019, EBMUD plans to replace approximately 2.5 miles of water pipeline in portions of Solano, Santa Fe, Evalyn, Ramona, Nielson, and Tevlin. Staff will coordinate street improvements with EBMUD in areas where pipeline replacements overlap with areas that have been identified by the most recent P-TAP report as having poor PCI values to ensure that street rehabilitation follows completion of pipeline work. Pavement Rehabilitation consultant, NCE, will evaluate additional street segments for rehabilitation for FY2019 and FY2020.

#### **Justification**

The Street Rehabilitation Program supports the City's Strategic Planning goals and General Plan Transportation element (Policy T-6.1). Funding the project as recommended will raise the PCI effectively and in coordination with the City's Active Transportation Plan projects.

#### **Budget Impact/Other**

In November 2016, city residents passed a parcel tax to establish a fund for sidewalk repair. This revenue source is expected to provide approximately \$200,000 per year for this purpose.

#### 2018 thru 2022

## City of Albany, California

Project # 23000

Project Name ANNUAL ACTIVE TRANSPORTATION PLAN (ATP)

Type Bikeways Department TRANSPORTATION PLANNI
Useful Life Contact Transportation Planner
Category STREETS / BIKEWAYS / PED Priority 4 Community Enhancement

Project Sponsor Transportation Planning Project Manager Public Works

Status Active
Total Project Cost: \$472,063

#### **Description**

This project involves the implementation of striping and signage along 14 roadway segments that will create bicycle route connections to local destinations in the City and provide access to regional connections through the Ohlone Greenway, Bay Trail, and with other bicycle routes in neighboring cities of El Cerrito and Berkeley. The design was completed in 2016 and construction is planned for 2018 as part of the 2018 Annual Street Rehabilitation Project.

#### **Justification**

The Active Transportation Plan (ATP) recommends 14 striping and signage projects in Albany that will install Class II and Class III bike facilities (bike lanes, and bike boulevards or bike routes) with respective wayfinding signage. The 2017 City Council Strategic Plan, Strategy 1.1.A, calls for the implementation of an Active Transportation Plan including the striping and signage projects to be completed in FY2018. On November 17, 2014, the City Council approved the design of a series of striping and signage improvements associated with implementation of the Active Transportation Plan.

Expenditures	2018	2019	2020	2021	2022	Total
Professional Services (Incl Const Mgt / Testing)	34,300					34,300

Category STREETS / BIKEWAYS / PED Priority 1 Safety

Project Sponsor Transportation Planning Project Manager Public Works

Status Active

**Description** Total Project Cost: \$4,646,401

This project includes design and construction of approved pedestrian improvements along San Pablo Avenue and Buchanan Street. On San Pablo Avenue, the project extends from the northern city limit to the southern leg of Washington Avenue, as well as signal and striping modifications at the San Pablo/Solano intersection and striping modifications at the San Pablo/Buchanan intersection. The improvements include installation of bulb outs, medians, high visibility crosswalks, audible pedestrian signals, installation of a rectangular rapid flashing pedestrian beacon (RRPB) at Portland and San Pablo Avenues. On Buchanan Street, the project entails the realignment of the Buchanan St./Marin merge, installation of a Pedestrian Hybrid Beacon (HAWK Signal) at Buchanan and Taylor, and implementation of enhancements at the intersection of Pierce Street and Buchanan Street.

#### **Justification**

This project is included in the Albany Active Transportation Plan of 2012 and the Complete Streets Plan for San Pablo Avenue and Buchanan Street of 2014.

Expenditures	2018	2019	2020	2021	2022	Total

Total	400,977		4,200,000			4,600,977

#### **Budget Impact/Other**

The Design phase (construction plans, specifications, and estimates) budget is \$451,000 and it is being funded through a state Active Transportation Grant Cycle 1 (ATP), CDBG, and TDA funds. The Construction phase of this project is not funded completely. Staff will continue to pursue grants to fund the construction phase of this project in its entirety. Staff will also evaluate implementation strategies, such as splitting the project in two phases: Phase I: implementation of the improvements along San Pablo Avenue, and Phase II: implementation of improvements along Buchanan Street. As the PS&E develops, staff will have more detailed estimates and will consider different implementation options.

#### 2018 thru 2022

Useful Life Contact Facilities & Maint Mgr
Category STREETS / BIKEWAYS / PED Priority 2 Legal Mandate / Regulation

Project Sponsor Public Works Project Manager Public Works

STOP

Status Active

Total Project Cost: \$121,700

#### **Description**

Federal mandates require the replacement of existing street signs with a reflective type. It is estimated that the City has 17,000 signs that need replacement. Signs included are parking, street, speed, and safety signs. There are three key federal requirements for compliance: Development of an Assessment and Maintenance Plans, replacement of regulatory (safety) signs, and replacement of street signs. The City initiated an Assessment and Maintenance Plan and anticipated completing this plan in the first half of 2019. There are 864 regulatory signs in the City that

will need replacement at a cost of approximately \$75,000. .

#### **Justification**

Federal mandates require the replacement of existing street signs with a reflective type

Expenditures	2018	2019	2020	2021	2022	Total
Professional Services (Incl Const Mgt / Testing)		30,000				30,000
Construction / Improvements			75,000			75,000

Total	14,000	30,000	75,000			119,000

#### **Budget Impact/Other**

This budget funds replacement of regulatory signs only. Staff will provide council with a summary of the Assessment and Maintenance Plan that will include a schedule for replacement of all mandated signs. Prior appropriations of \$91,000 was approved in 2016 to fund the Assessment and Maintenance Plan. Additional funding of \$21,000 is for an increase in the professional services budget associated with the Assessment and Maintenance Plan.

#### 2018 thru 2022

## City of Albany, California

Project # 24008

Project Name NORTH ALBANY TRAFFIC CALMING

Type Streets Department TRANSPORTATION PLANNI
Useful Life Contact Community Development Dir

Category STREETS / BIKEWAYS / PED Priority 4 Community Enhancement

Project Sponsor Transportation Planning Project Manager Public Works

Status Active

Total Project Cost: \$537,573

#### Description

The North Albany Traffic Calming Project extends from San Pablo Avenue to Masonic Avenue and includes many pedestrian and bicycle improvements along Brighton Avenue to improve safety for pedestrians and cyclists and to give this neighborhood a residential character. The approved enhancements for this corridor include the implementation of an exclusive cyclist westbound right turn lane at the San Pablo intersection, striping and signage to create a bicycle route and implementation of three mini Circles with high visibility crosswalks along the Brighton Avenue. Eleven speed humps on the 400 and 500 blocks of Kains, Stannage, Cornell, Talbot, and Evelyn were installed in 2016. Currently, the design for the remaining project elements is at 35%. Drainage improvements need to be resolved along this corridor prior to design completion. It is expected to finalize the design phase by late winter of 2018 and start implementation in the spring of 2018.

#### **Justification**

The North Albany Traffic Calming was identified by Council as a high-priority project. This corridor is the route to Albany Middle and Albany High Schools and residents have expressed concerns about bad driving behavior and increased volume of traffic, including delivery trucks due to neighboring land use in the El Cerrito Plaza Shopping Center.

Expenditures	2018	2019	2020	2021	2022	Total
Professional Services (Incl Const Mgt / Testing)	24,300		59,300			83,600

Total	30,300		484,700			515,000

## **Budget Impact/Other**

Measure BB Local Streets and Roads, Storm Drain Capital, Measure BB Bike and Pedestrian, and Transportation Development Act funding have been identified for the design and construction phases of this project. Prior funding of \$300,000 was appropriated in 2016. Additional funding of \$287,625 is required for design and construction of necessary drainage improvements.

#### 2018 thru 2022

## City of Albany, California

Project # 24009

Project Name WASHINGTON AVE TRAFFIC CALMING

Type Streets Department TRANSPORTATION PLANNI

Useful Life Contact Transportation Planner
Category STREETS / BIKEWAYS / PED Priority 1 Safety

Project Sponsor Transportation Planning Project Manager Public Works

Status Active

Total Project Cost: \$230,279

The project scope includes: 1) Design and Construction of a raised crosswalk on Washington Avenue at Catherine's Walk; design and installation of speed bumps on Washington Avenue between Polk Street and Cerrito Street; design and implementation of a paint bulbout at the intersection of Cerrito Street and Gateview Avenue; preparation of an ordinance authorizing closure of the northern sidewalk to pedestrians and to allow vehicles to park there from Pierce to Cerrito; preparation of a parking enforcement program for vehicle parking on Washington from Pierce to Cerrito, and design and implementation of striping, signage, and sidewalk barriers for all modifications. The project is currently in the planning phase. Design is schedule for Spring/Summer of 2018.

This segment of Washington Avenue is rather narrow with 22' of cross section and street parking along both sides of the street. Albany Active Transportation Plan identified barriers to pedestrian access along this corridor caused by vehicles parked on the sidewalk, overgrown landscaping, and garbage binds left unattended on the sidewalk. Furthermore, emergency access is compromised as there is no adequate space for emergency vehicles to maneuver through the corridor without the risk of hitting parked vehicles.

Expenditures	2018	2019	2020	2021	2022	Total
Professional Services (Incl Const Mgt / Testing)	25,000	30,000				55,000

Project funding will be from Measure B Local Streets and Roads, Measure B Bike and Ped, and Vehicle Registration Fee, and Gas Tax.

#### 2018 thru 2022

## City of Albany, California

Project # 25001

Project Name TRAFFIC CALMING CITYWIDE

Type Pedestrian Department PUBLIC WORKS
Useful Life Contact Transportation Planner

Category STREETS / BIKEWAYS / PED Priority 1 Safety

Project Sponsor Transportation Planning Project Manager Public Works

Status Active

#### **Description**

Total Project Cost: \$325,000

This project includes the implementation of speed humps and/or soft traffic calming treatments in the form of edge line striping, and crosshatching with bollards or Botts dots at intersections on blocks that have qualified for traffic calming according to City Policy.

#### **Justification**

The recommended speed humps are the culmination of a process that starts with a resident of a neighborhood requesting a speed and volume survey on his block of residence. The request must be supported by at least 67 percent of the block households. According to the City of Albany Traffic Calming Policy, a block qualifies for speed treatments that include a vertical or horizontal deflection in vehicular traffic if the 85th percentile speed is 30 mph or more and the daily traffic volume is less than 3,000 vehicles per day. Other considerations are physical characteristics of the block, such as grades and horizontal curves.

The list of locations that have qualified for speed humps to date are:

1000 Key Route Blvd: 3 speed humps 600 Block of Masonic: 1 speed hump 500 Block of Masonic: 1 Speed hump 900 Peralta: 2 Speed humps

1000 Peralta: 1 speed hump (by Francis)

The following blocks have qualified for soft treatments: 900 Block of Taylor: White edge line along parking lane to reduce cross section of vehicular lane, and intersection crosshatch at the Taylor/Solano intersection

800 Block of Santa Fe: White edge line along parking lane to reduce cross section of vehicular lane.

900 Peralta: Intersection treatments at the Marin Avenue intersection related to reducing the turning radius with crosshatch striping and

bollards.

1000 Peralta: First phase: Yield signs and Yield lines. Second phase, crosswalk and curb ramp.

Expenditures	2018	2019	2020	2021	2022	Total
Professional Services (Incl Const Mgt / Testing)		40,000				40,000
Construction / Improvements		25,000	75,000	75,000	80,000	255,000
Contingency		15,000	5,000	5,000	5,000	30,000
Total		80,000	80,000	80,000	85,000	325,000
Funding Sources	2018	2019	2020	2021	2022	Total
1201 MEASURE BB LOCAL STS (ACTC)		80,000	80,000	80,000	85,000	325,000
Total		80,000	80,000	80,000	85,000	325,000

#### **Budget Impact/Other**

The project budget is \$211,000 and it is expected to complete in two phases. The unit cost for speed humps and striping are based on the size of the project and would increase if the project was split apart. This project is proposed to be funded by Measure BB and/or Vehicle Registration Fees.

#### 2018 thru 2022

## City of Albany, California

Project # 25002

Project Name BUCHANAN BIKE PATH (PHASE IV)

Type Pedestrian Department TRANSPORTATION PLANNI

Useful Life Contact Transportation Planner

Category STREETS / BIKEWAYS / PED Priority 1 Safety

Project Sponsor Transportation Planning Project Manager

Status Active

#### **Description**

Total Project Cost: \$600,000

Installation of a bicycle lane between the eastbound through lane and the eastbound right turn lane along Marin Avenue on the west leg of the Marin/San Pablo intersection; implementation of signal modifications that allow for a bicycle/pedestrian exclusive phase; and implementation of bicycle boxes on the westbound approach of this intersection. The bike boxes require installation of No Right Turn on Red for the westbound direction on Marin Avenue.

This project will enhance bicycle safety along the Buchanan Bikeway.

#### **Justification**

The Buchanan Marin Bikeway Phases I, II, and III have been implemented and these facilities are attracting increased use of cycling as a means of transportation. Phase IV is the final project phase. Marin and San Pablo are two major arterials carrying 19,000 Average Daily Traffic (ADT) and 25,000 ADT, respectively posing a threat to cyclists traveling through it. This intersection is also located at crossroads of vehicular, pedestrian, and bicycle trip generators, such as the UC Village Mixed Use Development, Ocean View Park, Ocean View School, City Hall, and Bay Trail. Therefore, it is crucial to provide heightened levels of safety for cyclists using the bike facilities already in place.

Expenditures	2018	2019	2020	2021	2022	Total

Total	22,000	578,000				600,000

#### **Budget Impact/Other**

The City has been awarded a Measure B grant for \$600,000 for the construction phase of the project. There is a minor design element for the signal and bike boxes that will be funded by these funds as well. Project is slated to complete final design in the spring of 2018 and construction in the fall or winter of 2018.

Project # 25003

Project Name DARTMOUTH BICYCLE CROSSING

TypePedestrianDepartmentPUBLIC WORKSUseful Life20ContactTransportation Planner

Category STREETS / BIKEWAYS / PED Priority 1 Safety

Project Sponsor Transportation Planning Project Manager Public Works

**Status** Active

Total Project Cost: \$123,500

#### Description

This project includes requesting to the FHWA permission to experiment with installation of a bicycle signal head on the Hybrid Pedestrian Beacon (HAWK) and striping of bicycle crossing markings on San Pablo Avenue at Dartmouth. The HAWK signal was installed as part of the

UC Village Mixed Use development.

#### **Justification**

The project supports the City's Strategic Plan element 1.1.A Implement Active Transportation Plan.

Dartmouth Street is designated as a bicycle boulevard in the Albany ATP. The Dartmouth Bicycle Boulevard connects directly to the cycle track installed as part of the UC Village Mixed Use facility at the intersection with San Pablo Avenue. It provides important local and regional connections, such as the Codornices Creek Multiuse trail, which connects to the UC Village Baseball fields and to West Berkeley. On the north, it connects with the Buchanan Bikeway and with the Marin Avenue bike lanes providing bike access to Ocean View School and Ocean View Park and to the Albany Waterfront and Bay Trail when heading west and to the local and regional connections via the Ohlone Greenway heading east.

Expenditures	2018	2019	2020	2021	2022	Total

#### Description

Total Project Cost: \$44,000

This project consists of the implementation of red curbs at City intersections per City Red Zone Policy, adopted by Council Resolution No 2017-73 on September 5, 2017.

#### **Justification**

Red zones at intersections provide necessary protection by daylighting pedestrians when crossing the streets. Often, vehicles park too close to the pedestrian crosswalk obstructing visibility of pedestrians about to cross the street putting them as risk of being struck by a vehicle. The red zones will also provide better visibility at intersections of oncoming traffic in intersecting streets.

Implementation of red zones can be done in phases, prioritizing those streets in the Pedestrian Network as identified in the ATP and the routes to school.

Expenditures	2018	2019	2020	2021	2022	Total
Professional Services (Incl Const Mgt / Testing)			21,000	21,000		42,000
Contingency			1,000	1,000		2,000
Total			22,000	22,000		44,000
<b>Funding Sources</b>	2018	2019	2020	2021	2022	Total
Funding Sources 1104 VEH REG FEE	2018	2019	<b>2020</b> 22,000	<b>2021</b> 22,000	2022	<b>Total</b> 44,000

#### **Budget Impact/Other**

This project is a one-time initiative to correct a city-wide issue. Upon completion an ongoing implementation and maintenance budget is recommended for the red zone program. Measure B Bike and Pedestrian Local Distribution Funds are proposed to be used for this purpose.

#### 2018 thru 2022

## City of Albany, California

Project # 25006

Project Name COMPLETE STREETS (SOLANO)

Type Streets Department PUBLIC WORKS
Useful Life Contact Public Works Director

Category STREETS / BIKEWAYS / PED Priority 1 Safety

Project Sponsor Transportation Planning Project Manager Public Works

Status Active

#### Description

Total Project Cost: \$225,000

The purpose of the project is to execute a planning grant to identify complete street features and improvements on Solano Avenue from Masonic east to City limit. Improvements include sidewalks, crosswalks, street lighting, bulbouts, and modernized signals. This project will include project planning including data collection, preparation of base maps, community outreach, walkability audits, development of a Project Funding Plan, and development of preliminary design alternatives.

#### **Justification**

This project continues streetscape improvements that were completed on lower Solano Avenue in the early 2000s. The 2015 Strategic Plan includes the initiation of the planning process for improvements to Solano Avenue. The project's preliminary budget is \$225,000 incuding contingency. In 2017, Council entered into a grant agreement with Caltrans for \$225,000.

Expenditures	2018	2019	2020	2021	2022	Total
Professional Services (Incl Const Mgt / Testing)	200,000					200,000
Contingency	25,000					25,000

Funding Sources	2018	2019	2020	2021	2022	Total
1110 ACTIVE TRANSPORTATION PLAN (STATE)	225,000					225,000

#### **Budget Impact/Other**

The project's preliminary budget is \$225,000 and is funded through an Active Transportation Grant from Caltrans for \$225,000.

City of Albany 2018-2022 CIP

Project # 25007

Project Name MASONIC/MARIN INTERSECTION IMPROVEMENTS

Type Streets Department PUBLIC WORKS
Useful Life Contact Public Works Director

Category STREETS / BIKEWAYS / PED Priority 1 Safety

Project Sponsor Transportation Planning Project Manager Public Works

Status Active

#### Description

Total Project Cost: \$590,000

This project includes the upgrading of the traffic signals along Masonic at Marin Avenue and at Solano Avenue. The upgrades include installation of new controllers and software that allows for the addition of a signal phase to protect cyclists and pedestrians crossing the Ohlone Greenway.

#### **Justification**

This project will improve pedestrian safety at two intersections with high volumes of traffic. Given the significant number of pedestrians and cyclists crossing the Ohlone Greenway crosswalk, there is a need to protect this movement from conflicting southbound left and northbound right turn movements at these intersections. A bicycle and pedestrian signal phase will be added to the signal cycle with the possibility of protected left turns for vehicles. The project also includes lane configuration and Continental crosswalks restriping.

Expenditures	2018	2019	2020	2021	2022	Total
Professional Services (Incl Const Mgt / Testing)		40,000	50,000			90,000
Construction / Improvements			500,000			500,000
Total		40,000	550,000			590,000

0000 NO FUNDING CONFIRMED			550,000			550,000
OOM INWED						
1101 MEAS B LOCAL STS. (ACTC)		40,000				40,000

#### **Budget Impact/Other**

Traffic signal design is estimated at \$20,000 per intersection for a total of \$40,000 per intersection. Construction of the two signals is roughly estimated at \$250,000 per intersection without soft costs. In order to achieve economies of scale, it would be beneficial to implement these two signal improvements together. This project is a good candidate for funding through the Active Transportation Plan State grant program. This project is proposed to be funded by a combination of grant funds with gas tax as matching funds.

Project # 25008

Project Name STREET LIGHTING EVALUATION PROJECT

Type Streets Department PUBLIC WORKS
Useful Life Contact Transportation Planner

Category STREETS / BIKEWAYS / PED Priority 1 Safety

Project Sponsor Project Manager

Status Active

Description

Total Project Cost: \$200,000

Perform a Street Lighting evaluation/photogrammetric Plan including a baseline lighting assessment, development of target lighting criteria for commercial and residential areas as well as for major arterial, minor arterial, and residential feeder streets, identification of lighting deficiencies, and development of alternatives to improve city lighting to meet the target lighting criteria.

#### **Justification**

The purpose of the project is to evaluate the current lighting conditions for Albany streets and to identify lighting improvements for pedestrian and motorist safety and comfort.

SEWER / STORM DRAIN IMPROVEMENTS

# City of Albany, California

Project # 30001

Project Name WATERSHED MANAGEMENT PLAN UPDATE

Type Storm Drain Department SEWER / STORM DRAIN

Useful Life Contact Senior Engineer

Category SEWER / STORM DRAIN Priority 2 Legal Mandate / Regulation

Project Sponsor Public Works Project Manager Public Works

Status Active

#### **Description**

Total Project Cost: \$150,000

The purpose of this project is to update the City's 1998 Watershed Management Plan including adding a stormwater management element and storm water system assessment. The stormwater system assessment and master plan will include a hydraulic model and capacity analysis. This assessment will identify the current system condition and locate hydraulic factors that impact system capacity and contribute to sanitary sewer overflows. The update will also include a green infrastructure plan as required by the Municipal Regional Storm Water Permit which regulates storm water discharges. The green infrastructure plan will include requirements for implementing green infrastructure in public and private developments. Staff anticipates requesting proposals from qualified consulting firms in spring 2018 and starting work on the assessment in summer 2018. A portion of the work may include modeling of storms and their impact on storm drain performance, so the schedule will include fieldwork in winter of 2019.

#### **Justification**

The Watershed Management Plan will support Council's Strategic Plan: Foster Community Climate Action.

Expenditures	2018	2019	2020	2021	2022	Total
Professional Services (Incl Const Mgt / Testing)	25,000	125,000				150,000

Project # 35000

Project Name ANNUAL STORM DRAIN REHABILITATION

**Useful Life** 

Contact Senior Engineer

Category SEWER / STORM DRAIN Priority 2 Legal Mandate / Regulation

Project Sponsor Public Works Project Manager Public Works

Status Active

**Description** Total Project Cost: \$1,421,761

The Public Works department is responsible for the repair and maintenance of approximately 12 miles of storm drain pipelines and culverts. The City has identified approximately four (4) miles of storm drains that have apparent capacity limitation and an additional 2 miles of storm drains that need repair. Due to funding and staffing limitations, it is critical to identify which areas within this group are the highest priority for replacement or repair. To achieve this, the planned Watershed Management Plan and associated hydraulic modeling will be used as a tool to further clarify areas of priority improvement.

**Department** SEWER / STORM DRAIN

In FY2018 through FY2019, the storm drain improvements will be limited to cross drain replacements while the Watershed Management Plan is completed and implemented. Staff will report back to council during the Watershed Management Plan consultant selection process.

#### **Justification**

The proposed storm drain rehabilitation projects will reduce flooding and pollution to the community. Coordinating projects with the proposed Watershed Management Plan will ensure the efficient use of city resources and significant reduction in flooding risk. The projects are required to maintain compliance with the Regional Board requirements for the clean water program. It supports Council's Strategic Plan: Advance Climate Action.

#### Description

Total Project Cost: \$10,000

This project provides funding for a private commercial parklet at 1205 Solano Avenue. This project is a partnership between AC Transit, City of Albany and the owners of Hal's Office and As You Wish. The Parklet will feature bus stop, seating, ADA access and seating, additional bike parking, Solar Big Bell and landscaping. Contract for labor is with the business owners and AC Transit. The City will reimburse the owners for materials.

The total project budget is estimate at \$83,000, of which the City is contributing \$10,000.

#### **Justification**

This project supports the Council Strategic Plan item of adding additional seating on Solano Avenue.

Project Sponsor Public Works Project Manager Public Works

Status Active

This project merged two projects on the Ohlone Greenway and the 800 block of Masonic Ave. (from Solano Ave. to Washington Ave.) The purpose of the project is to install park amenities along the Ohlone Greenway and to install pedestrian safety improvements on the east side of Masonic Avenue on the same block. Pedestrian and safety improvements consist of a new sidewalk along the east side of Masonic Avenue, a raised tabletop crosswalk in front of the Senior Center, another speed hump toward the north end of the block, new street trees and striping for parking along the Greenway, including accessible parking spaces. Fitness equipment, a log scramble play area, a paved plaza, new landscaping and seating amenities are added to the Greenway on this block. Additional work is being performed on another section of the Ohlone Greenway, just north of Codornices Creek, where landscaping improvements and log seating will be added to the Redwood Grove.

The City hired a landscape designer to design the Ohlone Greenway improvements and a civil engineer to design the pedestrian and street safety measures. A competitive bid process awarded the contract to the lowest responsive and responsible bidder. The project is complete. Public Art installation is currently in development.

#### Justification

This project is supported by the City Council's Strategic Theme Maximize Parks/Open Space, the Parks & Rec Master Plan, the Arts Master Plan, and the Active Transportation Plan. When complete the plan will provide improved accessibility, recreation opportunities, fitness for all (free fitness equipment), and may also include a public art component.

Total Project Cost: \$1,691,330 **Description** 

Albany Hill's main trail allows a full loop that is approximately 1.3 miles. The trail takes hikers through a variety of vegetation, viewscapes, and a variety of terrain that meanders through steep slopes, flat and wide trails, and narrow trails. In the 2012 Albany Hill Creekside Park Master Plan there are nine recommendations to improve the existing circulation on the main trail. A conceptual design was completed in 2017 for trail improvements. The purpose of this project is to implement these trail improvements and to install a pedestrian/bike bridge across Cerritos Creek to connect Belmont Avenue with Albany Hill. The recommendations included in the project are:

- 1. ADA Access Top of Taft: Install a ramp at the primary entrance at the top of Taft Street that has an ADA compliant grade to allow those with limited mobility an opportunity to enjoy the crest which hosts the best east and west views on Albany Hill. (\$79,000)
- 2. Lower Taft Steps: Currently, access to lower Taft does not exist except via steps located on a resident's private property. The installation of steps on City owned property just north of the privately-owned steps is recommended to prevent hikers from using steps belonging to the homeowner. (\$115,000)
- 3. Trail Improvements: Implement trail improvements to improve access to scenic vistas as described in the conceptual design drawings. (\$45,000)

4. Pedestrian/Bike Bridge: Install a pedestrian/bike bridge at the end of Belmont Avenue to connect to the Albany Hill's trail network.

#### **Justification**

The Albany Hill Trail recommendations are supported by the Albany Hill Creekside Park Master Plan, the Active Transportation Plan (Priority network of walk only paths), the Parks & Rec Master Plan and the City Council's Strategic Theme Maximize Parks/Open Space. The Pedestrian/Bike bridge is supported by the Active Transportation Plan bike network recommendations.

Type Creeks Department COMMUNITY DEVELOPMEN

Useful Life Contact Finance Director

Category PARKS / TRAILS / CREEKS Priority 4 Community Enhancement

Project Sponsor Community Development Project Manager Community Development

Status Active

#### Description

Total Project Cost: \$652,285

This project will create flood plain, restore habitat, and improve a multiuse trail along Codornices Creek from San Pablo Avenue to 8th Street, Grant funding is required to implement the project. Lower Codornices Creek Improvement Plan and CEQA MND were approved by City Council in 2001. Planning phase in 2017 includes update to 2001 CEQA review, followed by final design in 2018.

This project phase will fund preliminary design and environmental work required for the project. There are insufficient funds to proceed with construction. Grants and other sources will be reviewed as project cost estimates are developed during the design.

#### **Justification**

This project supports the City's Strategic Plan element 3.2 Enhance Open Space.

The cost estimate is based on 2011 grant application, escalated at CCI of 1.7% per year to 2015 and 5% per year to 2018.

Expenditures	2018	2019	2020	2021	2022	Total

# City of Albany, California

Project # 50100

Project Name MAINTENANCE CENTER

Type Buildings Department PUBLIC WORKS
Useful Life Contact Public Works Director

Category BUILDINGS / FACILITIES Priority 1 Safety

Project Sponsor Project Manager

Status Active

#### Description

Total Project Cost: \$832,843

The City constructed a new Public Works Center at 540 Cleveland Avenue. The property was purchased by the City to build a new PW Center in May 2013. The total square footage is 19,970, which includes a main two-story building (17,017sf) and a equipment/vehicle car port. The building is substantially complete and occupied. Project closure is anticipated in third quarter FY2018.

#### **Justification**

The development of a permanent Public Works Service Center has been the goal of the City for a number of years. The City's existing facility at 544 Cleveland Avenue was relatively expensive to rent, is undersized for the required activities, and does not meet contemporary standards for employee productivity and sustainability.

Expenditures	2018	2019	2020	2021	2022	Total
Construction / Improvements	660,239					660,239

Project Name SENIOR CENTER RENOVATION PHASE 2

Type Buildings Department RECREATION & COMMUNIT

Category BUILDINGS / FACILITIES Priority 4 Community Enhancement

Project Sponsor Project Manager

Status Active

**Description** Total Project Cost: \$222,456

Significant portions of the Senior Center renovation project have been completed. A new HVAC system has been installed throughout the facility making everyone at the senior center, staff and participants more comfortable. All new window coverings have been installed. Remaining scope elements include improvements to the multipurpose room kitchen including installation of a new Make-Up-Air unit, 3-compartment sink, and upgrades to the janitor closet per County Health Department inspections. Upgrade of small kitchenette to meet ADA standards, landscaping of the front yard and backyard, and construction of a shade structure are also included. Bids for the project came in higher than anticipated at \$113,500. Completion is estimated for April 2018. Front and back yard landscaping and a shade structure are currently unfunded.

Contact Human Services Program Mgr

#### **Justification**

The purpose of the remaining renovation scope elements is to fulfill requirements from recent Health Department inspections and improve existing amenities. This project is supported by the City's Parks & Recreation Master Plan.

Expenditures	2018	2019	2020	2021	2022	Total

#### 2018 thru 2022

# City of Albany, California

Project # 50104

Project Name POLICE CYCLE STORAGE

Type Buildings Department POLICE
Useful Life Contact Police Chief
Category BUILDINGS / FACILITIES Priority 1 Safety

Project Sponsor Community Development Project Manager Community Development

Status Active

Total Project Cost: \$262,714

#### Description

This project entails the construction of a new storage facility (cycle shed) for use by the police department to store patrol motorcycles, patrol bicycles and related equipment in a manner that allows secure storage, protection from the elements, light preventative maintenance and repairs, and simple, safe ingress/egress for police personnel. The project also includes approximately 1000 square feet of open paved area. The size of the structure is expected to be between 400 -560 square feet pending budget constraints.

#### **Justification**

The Albany Police Department is in critical need of garage/storage/maintenance space for its expanding fleet of patrol bicycles, motorcycles and related equipment. The Fire Department would benefit from a paved area for parking apparatus for routine inspection as well as vehicle extraction training. The City Council has adopted four major themes for its Strategic Plan: Foster Community Climate Action, engage our Diverse Community, Maximize Park & Open Space, and Promote Vital & Inviting Business Areas. The project provides support of each of these themes by enabling the department to employ vehicles that present lower environmental impact, facilitate police-community engagement, and to more effectively patrol both our park open spaces and economic centers.

# City of Albany, California

Project # 63000

Project Name POLICE FLEET REPLACEMENTS

Type Fleet Department POLICE
Useful Life Contact Police Chief
Category MAJOR EQUIPMENT Priority 3 Cost-benefit

Project Sponsor Police Project Manager Police

#### Description

Total Project Cost: \$721,700

Police operations require a fleet of vehicles for patrol, investigations, parking enforcement, administration and support activities. The police motor vehicle fleet consists of seven patrol vehicles; two dual-sport motorcycles; three investigations vehicles; three command vehicles; three parking enforcement Vehicles; and three support vehicles.

In Fiscal Year 2018 - funding provides replacement of 2 Patrol Cars, 1 Investigations vehicle, and one parking enforcement cart.

Status Active

In Fiscal Year 2019 - funding provides replacement of one dual-sport motorcycle and two patrol vehicles.

In Fiscal Year 2020 - Funding provides replacement of two patrol vehicles and purchase of a patrol equipped motorcycle.

In Fiscal Year 2021 - Funding provides replacement of two patrol vehicles.

In Fiscal Year 2022 - Funding provides replacement of one patrol vehicle.

#### **Justification**

Emergency response requires an adequate fleet with sufficient back-up units to accommodate maintenance and peak operations.

Expenditures		2018	2019	2020	2021	2022	Total

Project # 65000

Project Name FIRE FLEET REPLACEMENTS

Type Fleet Department FIRE
Useful Life Contact Fire Chief
Category MAJOR EQUIPMENT Priority n/a

Project Sponsor Fire Project Manager Fire

Status Active

#### **Description**

Total Project Cost: \$3,117,966

This project provides for the replacement and outfitting of Fire Suppression and Emergency Medical Services vehicles. The nature of some of the larger pieces of equipment result in longer life cycles than a standard car or truck.

The current Fire Department fleet consists of:

- 1 2016 Ford Type 6 Wildland Engine (Target Replacement 2027)
- 1 1997 Pierce Type 1 Fire Engine 1250 GPM (Target Replacement 2022)
- 1 2009 Pierce Type 1 Fire Engine 1500 GPM (Target Replacement 2029)
- 1 2009 Pierce 75' Aerial Truck 1500 GPM (Target Replacement 2029)
- 1 2006 Ford / Horton Ambulance (Target Replacement 2019)
- 1 2014 Ford / Horton Ambulance (Target Replacement 2026)
- 1 2003 Ford Explorer Fire Prevention / Utility (Target Replacement 2019)
- 1 2015 Chevrolet Tahoe Command Vehicle (Target Replacement 2022 Current Lease)

#### **Justification**

To provide Emergency response, it is necessary for the City to maintain a fleet of fire suppression vehicles, emergency medical services ambulances, and support vehicles. This includes the ability to maintain reserve vehicles capable for a response as front line vehicles are serviced.

Expenditures	2018	2019	2020	2021	2022	Total
Equipment / Vehicles / Furnishings	0	210,000	0		1,245,000	1,455,000
Total	0	210,000	0		1,245,000	1,455,000
Funding Sources	2018	2019	2020	2021	2022	Total
0000 NO FUNDING CONFIRMED					1,015,000	1,015,000
2203 FIRE FLEET - EQUIP RESERVE		85,000	0		230,000	315,000
2204 EMS - EQUIP RESERVE	0	125,000				125,000
Total	0	210,000	0		1,245,000	1,455,000

#### **Budget Impact/Other**

These purchases are funded through the Fire Fleet Equipment Reserve (2203) and the EMS Equipment Reserve (2204) reserve funds out of the General Fund. There is currently one loan for the Wildland Engine that will be paid out in 1 to 2 years. Two vehicle replacements planned in 2017 and 2018 will be deferred to 2019. Staff anticipates a funding shortfall in reserve funds in 2022 and is evaluating purchase and lease options.

#### **Description**

Total Project Cost: \$1,080,700

Status Active

City services require the maintenance of a fleet of vehicles to provide on-going services. This includes heavy duty vehicles used for Streets, Parks, and Sewers as well as administrative support vehicles.

The current fleet includes the following:

SEWER OPERATIONS:

Granite Software UpgradeTarget replacement 2018

CCTV VanTarget replacement 2018

Camera/Target replacement 2018

Pipe Range Transporter for large sewerstarget replacement 2019

1 1997 - Vactor Trucktarget replacement 2019

1 1993 Rodder Truck

1 2013 Vac Con Line Cleaner

#### PUBLIC WORKS SHARED MAINTENANCE USES:

1 1988 F150- Light Dutytarget replacement 2018

1 2003 Ford F-150target replacement 2019

1 2017 Ford F-250

1 2017 Ford F-250

1 2008 Ford F-150target replacement 2020

2003 Ford F-150target replacement 2019

1 2004 Chevy 250Target replacement 2019

1 1986 Case Backhoetarget replacement TBD

1 2001 Toyota Forklifttarget replacement TBD

#### DIESEL VEHICLES

1 1990 Heavy Trucktarget replacement 2018

1 1990 Medium Trucktarget replacement 2018

#### PASSENGER / SUPPORT VEHICLES:

1 2003 Ford FocusTarget replacement 2020

1 2016d Escape

#### Justification

To be cost effective, vehicles should be periodically replaced to forego increased operating costs due to repairs. Staff regularly reviews the cost of ownership including anticipated future vehicle maintenance costs. Based on current and future cost of ownership vehicles are recommended for replacement according to the table above. Periodic replacements also improve the City's environmental footprint to the extent that newer vehicles operate with less impact on the environment. Each vehicle replacement will include a review of fuel efficiency for the class of the replacement vehicle.
