BART to Conduct Night Work on Track from MacArthur to Richmond Yard Platform

BART crews will be working at night on the MacArthur station thru Richmond Yard trackway between December 24, 2018 thru January 27, 2019* to perform rail grinding and adjust and weld rail ends.

This work is necessary to continue the reliability of our train system. For the safety of our passengers and our workers, this maintenance must be completed during non-service hours.

The contractor will use generators, lighting, hammer drills, blowers, and grinders to perform the work. The noise from the work may or may not exceed the freeway noise adjacent to the project.

We appreciate your patience as we work to make these repairs on the BART trackway. If you have questions about the project, please contact the Project Manager, Anna Suriadi at (510) 987-5286.

If you need language assistance services, please call BART's Transit Information Center at (510) 465-2278.

This work will not impact BART's train regular night schedule when in progress.

*Dates may be subject to change due to unforeseen circumstances.
