

ALBANY CALIFORNIA

CONSTRUCTION AND DEMOLITION STATEMENT

Pre-Demolition/ Pre-Construction Application Form

Permit #: _____

Project Address: _____ Date: _____

Contractor: _____

Contact: _____ Title: _____

Phone: _____ Email: _____

Specify whether materials will be reused, recycled or disposed by completing the table below. You must recycle at least 65% of all waste generated. Write in the relevant percentages; each pertinent row must add up to 100%. Provide the name of each facility or service provider to be used. If the materials are to be reused on site, describe under the facilities/service providers column. For example, wood waste chipped on site for mulch in plant beds. Salvaged materials from deconstruction should be designated as reuse.

Material	Reuse %	Recycle %	Dispose %	Facility or Service Provider
Asphalt				
Brick				
Cardboard				
Carpet				
Concrete / Stucco				
Dry Wall				
Metal				
Pallets				
Plastics				
Wood, Lumber*, Plant Debris				
Other _____				
Other _____				

*Framing members must be re-graded in order to be re-used.

Waste Management (WM) is the City's contractor for construction and demolition debris services. Please contact them directly to request a materials box and to schedule pick-ups at (510) 613-8710.

If you have any questions or comments please contact the Community Development Department at (510) 528-5760
