MAYOR'S STATEMENT

On the heels of the random act of violence and racial discrimination in Georgia against the Asian American Pacific Islander community, we are in disbelief of yet another random act of violence that occurred in Boulder, Colorado. I would like to extend my prayers of comfort for those persons who have lost loved ones and who are recovering from injuries both physical and mental. The City of Albany offer its strength and resiliency to build together as we continue to identify solutions to prevent these random acts of violence in the future.
