

Covid19 over the past two plus years has made people changed their dining habits.

Food truck foods and outdoor eating gives people options to enjoy food with mask off in a non-indoor setting.

We are thinking to put three trailers:

1. Boba milk tea & coffee trailer.
2. Fried rice / Chow Mein trailer.
3. Hot Dog / Lunch & dinner box trailer

in the back of the parking lot, keep around 6 to 8 parking spaces and some tables/chairs in the open space.

We would like to try and restore the liveliness of the original Casper Hot dog shop over 50 years ago.

Hope this will bring a lot of new excitements and night market style to Albany similar to Off the Grid in El Cerrito and FoodieLand Night Market at Golden Gate Fields in recent years but at smaller scale, more regular and longer-term addition to Albany.
