

For Member of City Council

John Anthony Miki Age: 45

Occupation: Architect/Urban Designer

In 2005 I moved to University Village with my young family to attend UC Berkeley. After receiving a Master's in Urban Design, we loved Albany so much we were fortunate to be able to make a home here.

Starting in 2010 I put my professional experience to service for Albany by joining the Transportation Commission. With fellow Commissioners and the public we crafted a plan to make Albany's streets safer for all the ways people get around. I spearheaded efforts on the 800s block of Washington Ave to improve safety, make sidewalks more accessible, cut through traffic and preserve parking.

As a member of the City Council, I will reach out into the community to bring forth a diversity of voices to address our most pressing issues and to continue to move Albany forward to a more resilient and sustainable future.

I am honored to be endorsed by the current Mayor Preston Jordan, former Mayor Pete Maass, School Board President Sara Hinkley, School Board Trustee Veronica Davidson, and Parks, Recreation & Open Space Commissioner and Co-founder of the API (Asian Pacific Islander) Parent Engagement Group Julia Chang Frank.

Vote Miki, López, and Pilch #1, 2 and 3 to move [albanyforward.org](http://albanyforward.org).
