

**FOR MEMBER OF THE CITY COUNCIL**

**Robin D. López**

**Age: 33**

**Occupation:** Scientist/Ecologist

I have served the city of Albany on the Social & Economic Justice Commission, working towards collective goals around equity and empowerment.

I have a proven track record of empowering people to actualize their potential and working with various stakeholders to achieve outcomes that are mutually beneficial for impacted people and spaces.

I am a past recipient of the White House Presidential Volunteer Service Award, under the Obama administration.

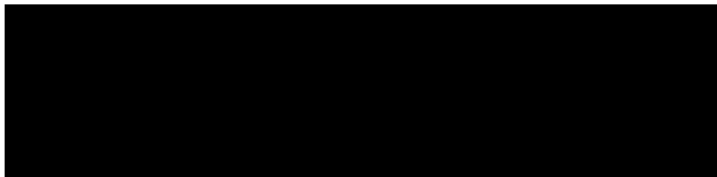

I have previously led mental health programming in Richmond, with the American Foundation for Suicide Prevention to raise awareness and support for Bay Area mental health services.

I am committed to community, youth opportunities, sensible housing, enhanced access to basic needs, mental health resources, advocating for sustainable, equitable infrastructure, and supporting evidence-based policy that is culturally and socially relevant.

I intend to bring a new era of young leadership in Albany that can move our city forward intentionally and responsibly.

I am endorsed by Mayor Preston Jordan, Vice-Mayor Aaron Tiedemann, School Board President Sara Hinkley, and past Mayor Nick Pilch.

Vote López, Pilch, and Miki #1, 2 and 3 to move [albanyforward.org](http://albanyforward.org)
