

FOR MEMBER OF THE BOARD OF EDUCATION

Sadia Khan

Age: 27

Occupation: Policy, Advocacy Coordinator

I have had the pleasure of serving fellow Albany residents residing in UC Village for the past four years, and have spent seven years working on education policy and advocacy. My work in education policy includes food and housing security, Title IX, mental health and expanding financial aid. I have also spent over four years as a teachers assistant, creating curriculum and teaching at the middle school, high school and college level.

During and after my time as a UC Berkeley student, I proactively organized to expand the Bear Pantry, hosting community building events, bringing much needed resources to UC Village and advocating for students at the UC level and statewide level.

I am a proud PTA mom to an Ocean View Otter, and with your help I want to: Build long-term and structural support for our teachers, children and parents, fill the equity gaps on all campuses, and bring UC Village and Ocean View voices to the School Board.

I will use my extensive experience as an advocate, and mother to push for holistic support for our children, parents and teachers. To learn more, please feel free to contact me at sadiaforalbany@gmail.com.
