AUG 09 REC'D
ALBANY CITY CLERK

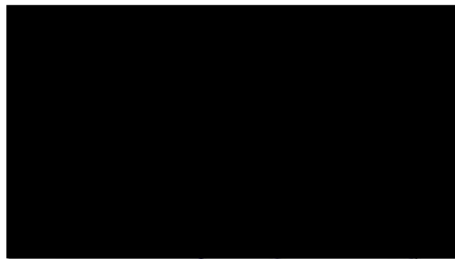

For Member of the City Council

Aaron Tiedemann

Occupation: Housing Policy Specialist

Age: 28

As a lifelong Albany resident, it has been my honor to serve as a City Councilmember. My number one focus on Council has been to ensure every resident has access to safe, stable, and affordable housing. I ensured passage of a strong and forward looking Housing Element for our city that sets the stage for progressive tenant protections and increased affordable housing development. I also helped lead successful negotiations for UC Berkeley to contribute \$6 million to core city services over the next 10 years, worked closely with staff to design the City's emergency debt and rent relief fund, and led community engagement through some of our City's most difficult moments. Regionally, my elected colleagues across the County selected me to serve on the Association of Bay Area Governments Executive Board, where I helped put the Bay Area Housing Finance Authority's Regional Bond on the ballot, and as Vice-Chair of the Board of Ava Community Energy (Albany's electricity supplier) to help lead our green energy efforts. I am running for reelection so Albany continues to meet the moment with smart, progressive solutions. With your vote, I know we can improve Albany for everyone who lives here now and in the future. I'm honored to be endorsed by Mayor John Miki, Vice-Mayor Robin López, and #2 by the Sierra Club. Vote Albanyforward.org.
