

FOR MEMBER OF THE ALBANY BOARD OF EDUCATION

DAYNA INKELES

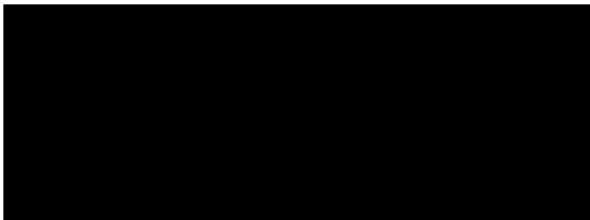

Occupation: Project Manager

AGE: 55

I'm excited to run for the Albany Board of Education. I am a parent of two high school students who have been in the district since TK. Since their start, I have been actively involved with our students, teachers and our incredible community. I have served as Auction Chair at two schools, room parent and Albany Middle School PTA President. I am very familiar with our schools and how to support students, teachers and staff.

After years of volunteering, I am ready to use my 25+ years of business experience to support our schools in a different capacity. Professionally, I manage complex, multi-million dollar projects that require extensive budgeting, communication, leadership and problem solving skills. I believe these skills will prove invaluable as we address the challenges facing our district- funding issues, transparency and the successful onboarding of a new superintendent to name a few.

I want to work with you to continue Albany's legacy of academic excellence, while balancing critical non-academic needs such as mental health. Accountability, transparency and inclusivity are the values that will guide my service. I hope to receive your vote so that we can work together to ensure all of our students thrive!
