

## Make the Switch to Reusable Foodware!

Single-use foodware poses a major problem in achieving emissions reduction targets. In Albany, Rigid Plastic Food Service Ware contributed to roughly 60 metric tons of plastic waste per year. Even compostable plastics are part of the problem.

### What you can do!

#### Say “No” to “To-Go”

Reusables are available throughout Albany. From coffee cups to plates to silverware, take advantage of these items and reduce some waste. if you can.

Learn more about reusable requirements: Page 23

#### Use Reusables for Take-Out

Bring your own reusable container or coffee cup to restaurants instead of using disposables. The California Retail Food Code (CRFC) and California AB 619 allow for customer-provided foodware.

#### Avoid single-use accessory items

Skip the straw! Only ask for straws, stirrers or condiments when necessary.
