REPORT BY: Michelle Plouse, Community Development Analyst
Justin Fried, Transportation & Sustainability Manager
Jeff Bond, Community Development Director

SUMMARY

The action before City Council is authorizing the acknowledgement of terms and conditions for a \$200,000 Energy Efficiency and Conservation Block Grant from the Department of Energy and the execution of a contract with Environmental Justice Solutions for \$100,000 for project outreach.

STAFF RECOMMENDATION

That City Council:

1. Adopt Resolution No. 2024-75, authorizing the City Manager to acknowledge the terms and conditions of the Energy Efficiency and Conservation Block Grant competitive award for the Gas Line Decommissioning Pilot Project, and
2. Adopt Resolution No. 2024-76, authorizing the City Manager to execute Contract No. C24-54 with Environmental Justice Solutions for professional services for the gas line decommissioning pilot project outreach.

BACKGROUND

Since 2020, the City of Albany has been developing an experimental pilot project with the goal of electrifying all buildings on one city block and decommissioning the corresponding section of the gas pipeline. To staff's knowledge, gas line decommissioning has never been attempted on a City-block scale. There have only been a handful of projects in very rural areas with a few buildings per project. The pilot is part of a developing strategy of zonal electrification, which aims to electrify buildings strategically and efficiently in geographic zones, rather than relying only on the current approach of incentivizing electrification on a by-appliance basis.

In addition to the efficiency benefits of gas line decommissioning, there is also an equity component to the project approach. As more homes in California transition to all-electric appliances, demand for natural gas will decrease while the costs to maintain the aging natural gas distribution system will hold steady or increase. The fixed costs phenomenon will likely disproportionately impact vulnerable populations such as low-income individuals and renters, as these populations will be paying higher prices for natural gas infrastructure and appliances and may not have the means to switch to all-electric appliances. The California Energy Commission (CEC) estimates that without intervention, the cost of natural gas will increase 480% by 2050. Low-income residents, especially those who do not own their homes, are most likely to be left stranded on the gas system with ballooning utility bills.

In order to decommission natural gas infrastructure, 100% of customers in the designated service area need to agree. Otherwise, the project is in violation of Public Utilities Code Section 451, which prohibits utility companies from denying any property owner of natural gas service unless they have expressly stated that they do not want the service.

City staff have worked with PG&E staff to select potential pilot sites in Albany. Staff has identified 12 locations where the PG&E gas pipeline network comes to an end, making it hydrologically feasible to cap the pipeline without disrupting the rest of the system, and in a location where the pipeline would otherwise need to be repaired or replaced in the near future.

On November 15th, 2021, the Council authorized City staff to work on the gas line decommissioning pilot. In August 2023, with a letter of commitment from Mayor Tiedemann, staff applied for the Energy Efficiency and Conservation Block Grant (EECBG) grant from the Department of Energy (DOE) to pursue the next phase of the project and the City was awarded the grant in October 2023. The upcoming work funded by the grant will take place over two years and will include intensive community engagement with potential project sites, building electrification analyses, deployment planning and negotiations for electrification and decommissioning, and reporting on findings and policy recommendations.

In February 2024, the Climate Action Committee discussed how to prioritize outreach efforts between the 12 potential pilot sites. In May 2024, the City Council had a similar discussion, and the Council expressed a preference for prioritizing blocks with multifamily buildings and a high percentage of renters in order to enhance the equity benefits of the program.

DISCUSSION

Grant Terms and Conditions

On September 25th the Department of Energy completed their internal review of the grant and project documents and officially awarded the City with the EECBG grant. The total amount of the award is \$200,000. Rather than an award agreement, the DOE provided a terms and conditions document (Attachment 1) In order to receive the award funds, the City must acknowledge the terms and conditions. The Terms and Conditions have a range of requirements, mainly focused on how the grant funds can be spent and requirements for reporting expenditures and progress. This project is exempt from several of the more complex requirements include the National

Environmental Policy Act (NEPA), the Davis-Bacon Act, and the Building America, Buy America requirements because the grant will not cover any construction activity.

Outreach Consultant Contract

The City issued a Request for Qualifications for outreach consulting services for the gas line decommissioning pilot on May 14th, 2024. Four qualifications were received. A selection committee was formed with staff and a representative of the Climate Action Committee to review the qualifications and interview the candidates. Based upon review of the qualifications, reference checks, and interviews, a contract with Environmental Justice (EJ) Solutions is recommended. The selection committee felt that EJ Solutions would be the best fit for this project due to their focus on deep and lasting engagement and community building as well as their focus on equitable outreach and many strategies for achieving equity, including staff with diverse language and cultural competency. EJ Solutions has broad experience working on projects throughout the Bay Area at the nexus of community engagement and climate action. Of particular relevance to this project, they also conducted focus groups for a study run by Ava Community Energy and Gridworks to understand opportunities and challenges related to gas line decommissioning.

The EJ Solutions contract, as detailed in the scope of work, includes five phases of work:

- Phase 1: Identify Target Communities, Develop Community Outreach Plan, and Outreach Materials
- Phase 2: Conduct Meaningful Community Outreach
- Phase 3: Prepare for Electrification Assessments
- Phase 4: Negotiations and Agreements
- Phase 5: Reporting

As mentioned above, the grant awards a total amount of \$200,000 and staff is recommending a contract not-to-exceed amount of \$100,000 for Contract No. C24-54. The grant will also be used to fund an upcoming second contract with technical consultants who will provide electrification assessments of buildings on select blocks. Staff and EJ Solutions have worked to scale the outreach activities in the contract scope of work to fit within the budget of the grant. However, as we move further along in the project the City may need to consider additional outreach activities and supplement funding to achieve our goals.

SUSTAINABILITY CONSIDERATIONS

The pilot project as a whole will advance sustainability by working to electrify buildings and provide a pilot for targeted gas line decommissioning as a means of large-scale electrification. In terms of the prioritization discussion specifically, blocks with more housing units and buildings would theoretically have a larger climate impact if electrified. However, any successful electrification project would have a positive impact.

SOCIAL EQUITY AND INCLUSIVITY CONSIDERATIONS

The pilot project aims to advance equity at a larger scale because the targeted decommissioning approach would reduce stranded assets in the gas system and help prevent skyrocketing gas prices for lower income customers that can't afford to electrify. Targeted decommissioning can also be used to help electrify the homes of those same under-resourced customers. Equity is also a consideration in the discussion of block prioritization. The Council may consider prioritizing blocks with a larger renter population or multifamily units as one way to address equity needs.

CITY COUNCIL STRATEGIC PLAN INITIATIVE

City Council Strategic Plan Initiative Goal 1, Objective 1 to “Advance Climate Action and Adaptation,” which includes a program to “Continue work to establish a pilot program for electrification of existing buildings.”

FINANCIAL CONSIDERATIONS

Acknowledgement of the terms and conditions will allow the City to receive the \$200,000 grant award from the DOE. These funds will be used for Contract No. C24-54 as well as an upcoming contract with technical consultants. The not-to-exceed amount for Contract No. C24-54 is \$100,000.

Subpart A. General Provisions

Term 1. Legal Authority and Effect

A DOE financial assistance award is valid only if it is in writing and is signed, either in writing or electronically, by a DOE Grants Officer.

The Recipient may accept or reject the Award. A request to draw down DOE funds or acknowledgement of award documents by the Recipient's authorized representative through electronic systems used by DOE, specifically FedConnect, constitutes the Recipient's acceptance of the terms and conditions of this Award. Acknowledgement via FedConnect by the Recipient's authorized representative constitutes the Recipient's electronic signature.

Term 2. Flow Down Requirement

The Recipient agrees to apply the terms and conditions of this Award, including the Intellectual Property Provisions, to all subrecipients (and contractors, as appropriate). See, 2 CFR 200.101(b)(2), 2 CFR 200.327, and 2 CFR 200.332.

Term 3. Compliance with Federal, State, and Municipal Law

The Recipient is required to comply with applicable federal, state, and local laws and regulations for all work performed under this Award. The Recipient is required to obtain all necessary federal, state, and local permits, authorizations, and approvals for all work performed under this Award.

Term 4. Inconsistency with Federal Law

Any apparent inconsistency between federal statutes and regulations and the terms and conditions contained in this Award must be referred to the DOE Award Administrator for guidance.

Term 5. Federal Stewardship

EERE will exercise normal federal stewardship in overseeing the project activities performed under this Award. Stewardship activities include, but are not limited to, conducting site visits; reviewing performance and financial reports; providing technical assistance and/or temporary intervention in unusual circumstances to address deficiencies that develop during the project; assuring compliance with terms and conditions; and reviewing technical performance after project completion to ensure that the project objectives have been accomplished.

Term 6. Substantial Involvement

EERE has substantial involvement in work performed under this Award. EERE does not limit its involvement to the administrative requirements of this Award. Instead, EERE has substantial involvement in the direction and redirection of the technical aspects of the project as a whole. Substantial involvement includes the following:

- EERE shares responsibility with the Recipient for the management, control, direction, and performance of the Project;
- EERE may intervene in the conduct or performance of work under this Award for programmatic reasons. Intervention includes the interruption or modification of the conduct or performance of project activities;
- EERE may redirect or discontinue funding the Project based on the outcome of EERE's evaluation of the Project at the Go/No Go decision point;
- EERE participates in major project decision-making processes.

Term 7. Federal Involvement

A. Review Meetings

The Recipient, including but not limited to the principal investigator (or, if applicable, co-principal investigators), is required to participate in periodic review meetings with EERE. Review meetings enable EERE to assess the work performed under this Award and determine whether the Recipient has timely achieved the technical milestones and deliverables stated in Attachment 1 to this Award.

EERE shall determine the frequency of review meetings and select the day, time, and location of each review meeting and shall do so in a reasonable and good faith manner. EERE will provide the Recipient with reasonable notice of the review meetings.

For each review meeting, the Recipient is required to provide a comprehensive overview of the project, including:

- The Recipient's technical progress compared to the Milestone Summary Table stated in Attachment 1 to this Award.
- The Recipient's actual expenditures compared to the approved budget in Attachment 3 to this Award.
- Other subject matter specified by the DOE Technology Manager/Project Officer.

B. Project Meetings

The Recipient is required to notify EERE in advance of scheduled tests and internal project meetings that would entail discussion of topics that could result in major changes to the baseline project technical scope/approach, cost, or schedule. Upon request by EERE, the Recipient is required to provide EERE with reasonable access (by telephone, webinar, or otherwise) to the tests and project meetings. The Recipient is not expected to delay any work under this Award for the purpose of government insight.

C. Site Visits

EERE's authorized representatives have the right to make site visits at reasonable times to review project accomplishments and management control systems and to provide technical assistance, if required. The Recipient must provide, and must require subrecipients to provide, reasonable access to facilities, office space, resources, and

assistance for the safety and convenience of the government representatives in the performance of their duties. All site visits and evaluations must be performed in a manner that does not unduly interfere with or delay the work.

D. Technical Milestones and Deliverables

Attachment 1 to this Award establishes technical milestones and deliverables. If the Recipient fails to achieve two or more technical milestones and deliverables, EERE may renegotiate the Statement of Project Objectives and/or Milestone Summary Table in Attachment 1 to this Award. In the alternative, EERE may deem the Recipient’s failure to achieve these technical milestones and deliverables to be material noncompliance with the terms and conditions of this Award and take action to suspend or terminate the Award.

E. EERE Access

The Recipient must provide any information, documents, site access, or other assistance requested by EERE for the purpose of its federal stewardship or substantial involvement.

Term 8. Foreign National Participation

A “foreign national” is defined as person without U.S. citizenship or nationality (may include a stateless person).

If the recipient (including any of its subrecipients and contractors) anticipates involving foreign nationals in the performance of the Award, the recipient must, upon DOE’s request, provide DOE with specific information about each foreign national to ensure compliance with the requirements for participation and access approval. The volume and type of information required may depend on various factors associated with the Award. The DOE Grants Officer will notify the recipient if this information is required.

DOE may elect to deny a foreign national’s participation in the Award, in its discretion, at any point during the performance of the award. Likewise, DOE may elect to deny a foreign national’s access to a DOE sites, information, technologies, equipment, programs, or personnel. DOE’s determination to deny participation or access is not appealable.

Term 9. Post-Award Due Diligence Reviews

During the period of performance of the Award, DOE may conduct ongoing due diligence reviews, through Government resources, to identify potential risks of undue foreign influence. In the event a risk is identified, DOE may require risk mitigation measures, including but not limited to, requiring an individual or entity not participate in the Award. As part of the research, technology, and economic security risk review, DOE may contact the recipient project team members for additional information to inform the review.

Term 10. NEPA Requirements

DOE must comply with the National Environmental Policy Act (NEPA) prior to authorizing the use of federal funds. Based on all information provided by the Recipient, EERE has made a NEPA

determination by issuing a categorical exclusion (CX) for all activities listed in the Statement of Project Objectives (SOPO) approved by the Grants Officer and the DOE NEPA Determination. The Recipient is thereby authorized to use federal funds for the defined project activities, except where such activity is subject to a restriction set forth elsewhere in this Award.

This authorization is specific to the project activities and locations as described in the SOPO approved by the Grants Officer and the DOE NEPA Determination.

If the Recipient later intends to add to or modify the activities or locations as described in the approved SOPO and the DOE NEPA Determination, those new activities/locations or modified activities/locations are subject to additional NEPA review and are not authorized for federal funding until the Grants Officer provides written authorization on those additions or modifications. Should the Recipient elect to undertake activities or change locations prior to written authorization from the Grants Officer, the Recipient does so at risk of not receiving federal funding for those activities, and such costs may not be recognized as allowable cost share.

Term 11. Performance of Work in United States

A. Requirement

All work performed under this Award must be performed in the United States unless the Grants Officer provides a waiver. This requirement does not apply to the purchase of supplies and equipment; however, the Recipient should make every effort to purchase supplies and equipment within the United States. The Recipient must flow down this requirement to its subrecipients.

B. Failure to Comply

If the Recipient fails to comply with the Performance of Work in the United States requirement, the Grants Officer may deny reimbursement for the work conducted outside the United States and such costs may not be recognized as allowable Recipient cost share of if the work is performed by the Recipient, subrecipients, contractors or other project partners.

C. Waiver for Work Outside the U.S.

All work performed under this Award must be performed in the United States. However, the Grants Officer may approve the Recipient to perform a portion of the work outside the United States under limited circumstances. The Recipient must obtain a waiver from the Grants Officer prior to conducting any work outside the U.S. To request a waiver, the Recipient must submit a written waiver request to the Grants Officer, which includes the information as required in the FOA that the Award was selected under.

For the rationale, the Recipient must demonstrate to the satisfaction of the Grants Officer that the performance of work outside the United States would further the

purposes of the FOA that the Award was selected under and is in the economic interests of the United States. The Grants Officer may require additional information before considering such request.

Term 12. Notice Regarding the Purchase of American-Made Equipment and Products – Sense of Congress

It is the sense of the Congress that, to the greatest extent practicable, all equipment and products purchased with funds made available under this Award should be American-made.

Term 13. Reporting Requirements

A. Requirements

The reporting requirements for this Award are identified on the Federal Assistance Reporting Checklist, attached to this Award. Failure to comply with these reporting requirements is considered a material noncompliance with the terms of the Award. Noncompliance may result in withholding of future payments, suspension, or termination of the current award, and withholding of future awards. A willful failure to perform, a history of failure to perform, or unsatisfactory performance of this and/or other financial assistance awards, may also result in a debarment action to preclude future awards by federal agencies.

B. Dissemination of Scientific and Technical Information

Scientific and Technical Information (STI) generated under this Award will be submitted to DOE via the Office of Scientific and Technical Information's Energy Link ([E-Link](#)) system. STI submitted under this Award will be disseminated via DOE's [OSTI.gov](#) website subject to approved access limitations. Citations for journal articles produced under the Award will appear on the [DOE PAGES](#) website.

C. Restrictions

Scientific and Technical Information submitted to E-Link must not contain any Protected Personal Identifiable Information (PII), limited rights data (proprietary data), classified information, information subject to export control classification, or other information not subject to release.

Term 14. Lobbying

By accepting funds under this Award, the Recipient agrees that none of the funds obligated on the Award shall be expended, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in 18 U.S.C. § 1913. This restriction is in addition to those prescribed elsewhere in statute and regulation.

Term 15. Publications

The Recipient is required to include the following acknowledgement in publications arising out

of, or relating to, work performed under this Award, whether copyrighted or not:

- *Acknowledgment:* “This material is based upon work supported by the U.S. Department of Energy’s Office of State and Community Energy Programs (SCEP) under the Energy Efficiency and Conservation Block Grants Competitive (EECBG) Award Number DE-SE0000999.”
- *Full Legal Disclaimer:* “This report was prepared as an account of work sponsored by an agency of the United States Government. Neither the United States Government nor any agency thereof, nor any of their employees, makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately owned rights. Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof. The views and opinions of authors expressed herein do not necessarily state or reflect those of the United States Government or any agency thereof.”

Abridged Legal Disclaimer: “The views expressed herein do not necessarily represent the views of the U.S. Department of Energy or the United States Government.”

Recipients should make every effort to include the full Legal Disclaimer. However, in the event that recipients are constrained by formatting and/or page limitations set by the publisher, the abridged Legal Disclaimer is an acceptable alternative.

The Award may be subject to a Data Management Plan as part of the Intellectual Property clause set that explains how data generated in the course of the work performed under this Award will be shared or preserved or, when justified, explains why data sharing or preservation is not possible or scientifically appropriate.

Term 16. No-Cost Extension

As provided in 2 CFR 200.308, the Recipient must provide the Grants Officer with notice in advance if it intends to utilize a one-time, no-cost extension of this Award. The notification must include the supporting reasons and the revised period of performance. The Recipient must submit this notification in writing to the Grants Officer and DOE Technology Manager/Project Officer at least 30 days before the end of the current budget period.

Any no-cost extension will not alter the project scope, milestones, deliverables, or budget of this Award.

Term 17. Property Standards

The complete text of the Property Standards can be found at 2 CFR 200.310 through 200.316. Also see 2 CFR 910.360 for additional requirements for real property and equipment for for-

profit recipients.

Term 18. Insurance Coverage

See 2 CFR 200.310 for insurance requirements for real property and equipment acquired or improved with federal funds. Also see 2 CFR 910.360(d) for additional requirements for real property and equipment for for-profit recipients.

Term 19. Real Property

Subject to the conditions set forth in 2 CFR 200.311, title to real property acquired or improved under a federal award will conditionally vest upon acquisition in the non-federal entity. The non-federal entity cannot encumber this property and must follow the requirements of 2 CFR 200.311 before disposing of the property.

Except as otherwise provided by federal statutes or by the federal awarding agency, real property will be used for the originally authorized purpose as long as needed for that purpose. When real property is no longer needed for the originally authorized purpose, the non-federal entity must obtain disposition instructions from DOE or pass-through entity.

See 2 CFR 200.311 for additional requirements pertaining to real property acquired or improved under a federal award. Also see 2 CFR 910.360 for additional requirements for real property for for-profit recipients.

Term 20. Equipment

Subject to the conditions provided in 2 CFR 200.313, title to equipment (property) acquired under a federal award will conditionally vest upon acquisition with the non-federal entity. The non-federal entity cannot encumber this property and must follow the requirements of 2 CFR 200.313 before disposing of the property.

A state must use equipment acquired under a federal award by the state in accordance with state laws and procedures.

Equipment must be used by the non-federal entity in the program or project for which it was acquired as long as it is needed, whether or not the project or program continues to be supported by the federal award. When no longer needed for the originally authorized purpose, the equipment may be used by programs supported by DOE in the priority order specified in 2 CFR 200.313(c)(1)(i) and (ii).

Management requirements, including inventory and control systems, for equipment are provided in 2 CFR 200.313(d).

When equipment acquired under a federal award is no longer needed, the non-federal entity must obtain disposition instructions from DOE or pass-through entity.

See 2 CFR 200.313 for additional requirements pertaining to equipment acquired under a federal award. Also see 2 CFR 910.360 for additional requirements for equipment for for-profit recipients. See also 2 CFR 200.439 Equipment and other capital expenditures.

Term 21. Supplies

See 2 CFR 200.314 for requirements pertaining to supplies acquired under a federal award. See also 2 CFR 200.453 Materials and supplies costs, including costs of computing devices.

Term 22. Continued Use of Real Property and Equipment

Real property and equipment purchased with project funds (federal share and recipient cost share) under this Award are subject to the requirements at 2 CFR 200.311, 200.313, and 200.316 (non-Federal entities, except for-profit entities) and 2 CFR 910.360 (for-profit entities). The Recipient may continue to use the real property and equipment after the conclusion of the award period of performance so long as the Recipient:

- a. continues to use the property for the authorized project purposes;
- b. complies with the applicable reporting requirements and regulatory property standards;
- c. as applicable to for-profit entities, UCC filing statements are maintained; and
- d. submits a written Request for Continued Use for DOE authorization, which is approved by the DOE Grants Officer.

The Recipient must request authorization from the Grants Officer to continue to use the property for the authorized project purposes beyond the award period of performance (“Request for Continued Use”). The Recipient’s written Request for Continued Use must identify the property and include: a summary of how the property will be used (must align with the authorized project purposes); a proposed use period (e.g., perpetuity, until fully depreciated, or a calendar date where the Recipient expects to submit disposition instructions); acknowledgement that the recipient shall not sell or encumber the property or permit any encumbrance without prior written DOE approval; current fair market value of the property; and an Estimated Useful Life or depreciation schedule for equipment.

When the property is no longer needed for authorized project purposes, the Recipient must request disposition instructions from DOE. For-profit entity disposition requirements are set forth at 2 CFR 910.360. Property disposition requirements for other non-federal entities are set forth in 2 CFR 200.310 – 200.316.

Term 23. Property Trust Relationship

Real property, equipment, and intangible property, that are acquired or improved with a federal award must be held in trust by the non-federal entity as trustee for the beneficiaries of the project or program under which the property was acquired or improved. See 2 CFR 200.316 for additional requirements pertaining to real property, equipment, and intangible property acquired or improved under a federal award.

Term 24. Record Retention

Consistent with 2 CFR 200.334 through 200.338, the Recipient is required to retain records relating to this Award.

Term 25. Audits

A. Government-Initiated Audits

The Recipient must provide any information, documents, site access, or other assistance requested by EERE, DOE or federal auditing agencies (e.g., DOE Inspector General, Government Accountability Office) for the purpose of audits and investigations. Such assistance may include, but is not limited to, reasonable access to the Recipient's records relating to this Award.

Consistent with 2 CFR part 200 as amended by 2 CFR part 910, DOE may audit or review the Recipient's financial records or administrative records relating to this Award at any time. Audits or reviews may be performed to determine if the Recipient has an adequate financial management system to estimate, bill, and record federal government expenditures in accordance with the criteria in 2 CFR 200.302, Generally Accepted Accounting Principles (GAAP), Generally Accepted Government Accounting Standards (GAGAS), and Standard Form 1408. Government-initiated audits are generally paid for by DOE.

DOE may conduct a final audit at the end of the project period (or the termination of the Award, if applicable). Upon completion of the audit, the Recipient is required to refund to DOE any payments for costs that were determined to be unallowable. If the audit has not been performed or completed prior to the closeout of the award, DOE retains the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

DOE will provide reasonable advance notice of audits and will minimize interference with ongoing work, to the maximum extent practicable.

B. Annual Independent Audits (Single Audit or Compliance Audit)

The Recipient must comply with the annual independent audit requirements in 2 CFR 200.500 through .521 for institutions of higher education, nonprofit organizations, and state and local governments (Single audit), and 2 CFR 910.500 through .521 for for-profit entities (Compliance audit).

The annual independent audits are separate from Government-initiated audits discussed in part A. of this Term and must be paid for by the Recipient. To minimize expense, the Recipient may have a Compliance audit in conjunction with its annual audit of financial statements. The financial statement audit is **not** a substitute for the Compliance audit. If the audit (Single audit or Compliance audit, depending on Recipient entity type) has not been performed or completed prior to the closeout of

the award, DOE may impose one or more of the actions outlined in 2 CFR 200.339, Remedies for Noncompliance.

Term 26. Site Visits and Recipient Administrative Organizational Reviews

EERE’s authorized representatives have the right to make site visits and conduct Recipient Administrative Organizational Reviews to review the project and management control systems and to provide technical assistance, as appropriate. The Recipient must provide, and must require its subrecipients and contractors to provide, reasonable access to facilities, office space, resources, and assistance for the safety and convenience of the government representatives in the performance of their duties. EERE will make reasonable efforts to ensure these site visits do not interfere with or unduly delay project work.

Term 27. Indemnity

The Recipient shall indemnify DOE and its officers, agents, or employees for any and all liability, including litigation expenses and attorneys’ fees, arising from suits, actions, or claims of any character for death, bodily injury, or loss of or damage to property or to the environment, resulting from the project, except to the extent that such liability results from the direct fault or negligence of DOE officers, agents or employees, or to the extent such liability may be covered by applicable allowable costs provisions.

Subpart B. Financial Provisions

Term 28. Maximum Obligation

The maximum obligation of DOE for this Award is the total “Funds Obligated” stated in Block 13 of the Assistance Agreement to this Award.

Term 29. Refund Obligation

The Recipient must refund any excess payments received from EERE, including any costs determined unallowable by the Grants Officer. At the end of the project period (or the termination of the Award, if applicable), the Recipient must refund to EERE the difference between (1) the total payments received from EERE, and (2) the federal share of the costs incurred. Refund obligations under this Term do not supersede the annual reconciliation or true up process if specified under the Indirect Cost Term.

Term 30. Allowable Costs

EERE determines the allowability of costs in accordance with 2 CFR Part 200 as amended by 2 CFR Part 910. All project costs must be allowable, allocable, and reasonable. The Recipient must document and maintain records of all project costs, including, but not limited to, the costs paid by federal funds, costs claimed by its subrecipients and project costs that the Recipient claims as cost sharing, including in-kind contributions. The Recipient is responsible for maintaining records adequate to demonstrate that costs claimed have been incurred, are reasonable, allowable, and allocable, and comply with the appropriate cost principles. Upon request, the

Recipient is required to provide such records to EERE. Such records are subject to audit. Failure to provide EERE adequate supporting documentation may result in a determination by the Grants Officer that those costs are unallowable.

The Recipient is required to obtain the prior written approval of the Grants Officer for any foreign travel costs.

Term 31. Indirect Costs

A. Indirect Cost Allocation:

The budget for this Award does not include an allocation of segregated indirect billing rates. Therefore, indirect charges shall not be charged under allocated billing rates, nor shall reimbursement be requested for this project for segregated indirect cost billing rates, nor shall any indirect charges for this project be allocated to any other federal-federally sponsored project. The Recipient cannot claim indirect costs separately as cost share.

B. Fringe Cost Allocation:

The budget for this award does not include an allocation of segregated fringe billing rates. Fringe benefit costs have been found reasonable as incorporated in the Recipient's burdened labor rate or under an allocated indirect cost billing rate. Therefore, fringe benefit costs shall not be charged as a separate rate allocation to this Award. EERE will not reimburse fringe benefit costs as a separate budget item. Fringe benefit costs for this Award cannot be allocated as a separate rate allocation to any other federally-sponsored project.

C. Subrecipient Indirect Costs (If Applicable):

The Recipient must ensure its subrecipient's indirect costs are appropriately managed, have been found to be allowable, and comply with the requirements of this Award and 2 CFR Part 200 as amended by 2 CFR Part 910.

D. Indirect Cost Stipulations:

i. Modification to Indirect Cost Billing Rates

EERE will not modify this Award solely to provide additional funds to cover increases in the Recipient's indirect cost billing rate(s). Adjustments to the indirect cost billing rates must be approved by the Recipient's Cognizant Agency or Cognizant Federal Agency Official.

The Recipient must provide a copy of an updated NICRA or indirect rate proposal to the DOE Award Administrator in order to increase indirect cost billing rates. If the Grants Officer provides prior written approval, the Recipient may incur an increase in the indirect cost billing rates. Reimbursement will be limited by the budgeted dollar amount for indirect

costs for each budget period as shown in Attachment 3 to this Award.

ii. Award Closeout

The closeout of the DOE award does not affect (1) the right of the DOE to disallow costs and recover funds on the basis of a later audit or other review; (2) the requirement for the Recipient to return any funds due as a result of later refunds, corrections or other transactions including final indirect cost billing rate adjustments; and (3) the ability of the DOE to make financial adjustments to a previously closed award resolving indirect cost payments and making final payments.

Term 32. Pre-Award Costs

As stated in the Grants Officer's Pre-Award Costs Letter dated January 30, 2024, the Recipient is authorized to request reimbursement for costs incurred on or after September 28, 2023, if (1) such costs are allowable in accordance with 2 CFR Part 200 as amended by 2 CFR Part 910, (2) such costs are not otherwise restricted by Term titled "National Environmental Policy Act (NEPA) Requirements," and (3) such costs are not otherwise restricted by any other Term. If the Recipient elects to undertake activities that are not authorized for federal funding by the Grants Officer in advance of DOE completing the NEPA review, the Recipient is doing so at risk of not receiving federal funding and such costs may not be recognized as allowable cost share. Nothing contained in the pre-award cost reimbursement regulations or any pre-award costs approval letter from the Grants Officer override these NEPA requirements to obtain the written authorization from the Grants Officer prior to taking any action that may have an adverse effect on the environment or limit the choice of reasonable alternatives.

Term 33. Use of Program Income

If the Recipient earns program income during the project period as a result of this Award, the Recipient must add the program income to the funds committed to the Award and used to further eligible project objectives.

Term 34. Payment Procedures

A. Method of Payment

Payment will be made by advances through the Department of Treasury's ASAP system.

B. Requesting Advances

Requests for advances must be made through the ASAP system. The Recipient may submit requests as frequently as required to meet its needs to disburse funds for the federal share of project costs. If feasible, the Recipient should time each request so that the Recipient receives payment on the same day that the Recipient disburses funds for direct project costs and the proportionate share of any allowable indirect costs. If same-day transfers are not feasible, advance payments must be as close to actual disbursements as administratively feasible.

C. Adjusting Payment Requests for Available Cash

The Recipient must disburse any funds that are available from repayments to and interest earned on a revolving fund, program income, rebates, refunds, contract settlements, audit recoveries, credits, discounts, and interest earned on any of those funds before requesting additional cash payments from EERE.

D. Payments

All payments are made by electronic funds transfer to the bank account identified on the Bank Information Form that the Recipient filed with the U.S. Department of Treasury.

E. Unauthorized Drawdown of Federal Funds

For each budget period, the Recipient may not spend more than the federal share authorized to that particular budget period, without specific written approval from the Grants Officer. The Recipient must immediately refund EERE any amounts spent or drawn down in excess of the authorized amount for a budget period. The Recipient and subrecipients shall promptly, but at least quarterly, remit to DOE interest earned on advances drawn in excess of disbursement needs and shall comply with the procedure for remitting interest earned to the federal government per 2 CFR 200.305, as applicable.

Term 35. Budget Changes

A. Budget Changes Generally

The Grants Officer has reviewed and approved the SF-424A in Attachment 3 to this Award.

Any increase in the total project cost, whether DOE share or Cost Share, which is stated as "Total" in Block 12 to the Assistance Agreement of this Award, must be approved in advance and in writing by the Grants Officer.

Any change that alters the project scope, milestones or deliverables requires prior written approval of the Grants Officer. EERE may deny reimbursement for any failure to comply with the requirements in this term.

B. Transfers of Funds Among Direct Cost Categories

The Recipient is required to obtain the prior written approval of the Grants Officer for any transfer of funds among direct cost categories where the cumulative amount of such transfers exceeds or is expected to exceed 10 percent of the total project cost, which is stated as "Total" in Block 12 to the Assistance Agreement of this Award.

The Recipient is required to notify the DOE Technology Manager/Project Officer of any transfer of funds among direct cost categories where the cumulative amount of

such transfers is equal to or below 10 percent of the total project cost, which is stated as “Total” in Block 12 to the Assistance Agreement of this Award.

C. Transfer of Funds Between Direct and Indirect Cost Categories

The Recipient is required to obtain the prior written approval of the Grants Officer for any transfer of funds between direct and indirect cost categories. If the Recipient’s actual allowable indirect costs are less than those budgeted in Attachment 3 to this Award, the Recipient may use the difference to pay additional allowable direct costs during the project period so long as the total difference is less than 10% of total project costs and the difference is reflected in actual requests for reimbursement to DOE.

Subpart C. Miscellaneous Provisions

Term 36. Environmental, Safety and Health Performance of Work at DOE Facilities

With respect to the performance of any portion of the work under this Award which is performed at a DOE-owned or controlled site, the Recipient agrees to comply with all State and Federal Environmental, Safety and Health (ES&H) regulations and with all other ES&H requirements of the operator of such site.

Prior to the performance on any work at a DOE-owned or controlled site, the Recipient shall contact the site facility manager for information on DOE and site-specific ES&H requirements.

The Recipient is required apply this provision to its subrecipients and contractors.

Term 37. Insolvency, Bankruptcy or Receivership

The Recipient shall immediately, but no later than five days, notify EERE of the occurrence of any of the following events: (1) the Recipient or the Recipient’s parent’s filing of a voluntary case seeking liquidation or reorganization under the Bankruptcy Act; (2) the Recipient’s consent to the institution of an involuntary case under the Bankruptcy Act against the Recipient or the Recipient’s parent; (3) the filing of any similar proceeding for or against the Recipient or the Recipient’s parent, or the Recipient’s consent to the dissolution, winding-up or readjustment of its debts, appointment of a receiver, conservator, trustee, or other officer with similar powers over the Recipient, under any other applicable state or federal law; or (4) the Recipient’s insolvency due to its inability to pay debts generally as they become due.

Such notification shall be in writing and shall: (1) specifically set out the details of the occurrence of an event referenced in paragraph A; (2) provide the facts surrounding that event; and (3) provide the impact such event will have on the project being funded by this Award.

Upon the occurrence of any of the four events described in paragraph A. of this term, EERE reserves the right to conduct a review of the Recipient's Award to determine the Recipient's compliance with the required elements of the Award (including such items as cost share, progress towards technical project objectives, and submission of required reports). If the EERE review determines that there are significant deficiencies or concerns with the Recipient's performance under the Award, EERE reserves the right to impose additional requirements, as needed, including (1) change of payment method; or (2) institute payment controls.

Failure of the Recipient to comply with this term may be considered a material noncompliance of this Award by the Grants Officer.

Term 38. Reporting Subawards and Executive Compensation

A. Reporting of first-tier subawards

- i. *Applicability.* Unless the Recipient is exempt as provided in paragraph D. of this award term, the Recipient must report each action that equals or exceeds \$30,000 in federal funds for a subaward to an entity (see definitions in paragraph E. of this award term).

 1. The Recipient must report each obligating action described in paragraph A.i. of this award term to <https://www.fsr.gov>.

 - b. \$25,000,000 or more in annual gross revenues from federal procurement contracts (and subcontracts) and federal financial assistance subject to the Transparency Act, as defined at 2 CFR 170.320 (and subawards).
3. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at <http://www.sec.gov/answers/excomp.htm>).
- ii. *Where and when to report.* The Recipient must report executive total compensation described in paragraph B.i. of this award term:

- i. *Applicability and what to report.* Unless the Recipient is exempt as provided in paragraph D. of this award term, for each first-tier subrecipient under this award, the Recipient shall report the names and total compensation of each of the subrecipient's five most highly compensated executives for the subrecipient's preceding completed fiscal year, if:
 1. In the subrecipient's preceding fiscal year, the subrecipient received:
 - a. 80 percent or more of its annual gross revenues from federal procurement contracts (and subcontracts) and federal financial assistance subject to the Transparency Act, as defined at 2 CFR 170.320 (and subawards); and
 - b. \$25,000,000 or more in annual gross revenues from federal procurement contracts (and subcontracts), and federal financial assistance subject to the Transparency Act (and

subawards).

2. The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at <http://www.sec.gov/answers/excomp.htm>).
- ii. *Where and when to report.* The Recipient must report subrecipient executive total compensation described in paragraph C.i. of this award term:
 1. To the recipient.
 2. By the end of the month following the month during which the Recipient makes the subaward. For example, if a subaward is obligated on any date during the month of October of a given year (*i.e.*, between October 1 and 31), the Recipient must report any required compensation information of the subrecipient by November 30 of that year.

D. Exemptions

If, in the previous tax year, the Recipient had gross income, from all sources, under \$300,000, it is exempt from the requirements to report:

- i. Subawards; and
- ii. The total compensation of the five most highly compensated executives of any subrecipient.

E. Definitions

For purposes of this Award term:

 1. A Governmental organization, which is a State, local government, or Indian tribe.

5. Above-market earnings on deferred compensation which is not tax-qualified.
6. Other compensation, if the aggregate value of all such other compensation (*e.g.*, severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the executive exceeds \$10,000.

Term 39. System for Award Management and Universal Identifier Requirements

A. Requirement for Registration in the System for Award Management (SAM)

Unless the Recipient is exempted from this requirement under 2 CFR 25.110, the Recipient must maintain the currency of its information in SAM until the Recipient submits the final financial report required under this Award or receive the final payment, whichever is later. This requires that the Recipient reviews and updates the information at least annually after the initial registration, and more frequently if required by changes in its information or another award term.

B. Unique Entity Identifier (UEI)

SAM automatically assigns a UEI to all active SAM.gov registered entities. Entities no longer have to go to a third-party website to obtain their identifier. This information is displayed on SAM.gov.

If the Recipient is authorized to make subawards under this Award, the Recipient:

- i. Must notify potential subrecipients that no entity (see definition in paragraph C of this award term) may receive a subaward from the Recipient unless the entity has provided its UEI number to the Recipient.
- ii. May not make a subaward to an entity unless the entity has provided its UEI number to the Recipient.

C. Definitions

For purposes of this award term:

- i. System for Award Management (SAM) means the federal repository into which an entity must provide information required for the conduct of business as a recipient. Additional information about registration procedures may be found at the SAM Internet site (currently at <https://www.sam.gov>).

- ii. Unique Entity Identifier (UEI) is the 12-character, alpha-numeric identifier that will be assigned by SAM.gov upon registration.
- iii. Entity, as it is used in this award term, means all of the following, as defined at 2 CFR Part 25, subpart C:

 - 2. A foreign public entity.
 - 3. A domestic or foreign nonprofit organization.
 - 4. A domestic or foreign for-profit organization.
 - 5. A federal agency, but only as a subrecipient under an award or subaward to a non-federal entity.
- iv. Subaward:
 - 1. This term means a legal instrument to provide support for the performance of any portion of the substantive project or program for which the Recipient received this Award and that the Recipient awards to an eligible subrecipient.
 - 2. The term does not include the Recipient's procurement of property and services needed to carry out the project or program (for further explanation, see 2 CFR 200.501 Audit requirements, (f) *Subrecipients and Contractors* and/or 2 CFR 910.501 Audit requirements, (f) *Subrecipients and Contractors*).
 - 3. A subaward may be provided through any legal agreement, including an agreement that the Recipient considers a contract.
- v. Subrecipient means an entity that:
 - 1. Receives a subaward from the Recipient under this Award; and
 - 2. Is accountable to the Recipient for the use of the federal funds provided by the subaward.

Term 40. Nondisclosure and Confidentiality Agreements Assurances

- A. By entering into this agreement, the Recipient attests that it **does not and will not** require its employees or contractors to sign internal nondisclosure or confidentiality agreements or statements prohibiting or otherwise restricting its employees or contractors from lawfully reporting waste, fraud, or abuse to a designated investigative or law enforcement representative of a federal department or agency authorized to receive such information.

- B. The Recipient further attests that it **does not and will not** use any federal funds to implement or enforce any nondisclosure and/or confidentiality policy, form, or agreement it uses unless it contains the following provisions:
- i. *“These provisions are consistent with and do not supersede, conflict with, or otherwise alter the employee obligations, rights, or liabilities created by existing statute or Executive order relating to (1) classified information, (2) communications to Congress, (3) the reporting to an Inspector General of a violation of any law, rule, or regulation, or mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety, or (4) any other whistleblower protection. The definitions, requirements, obligations, rights, sanctions, and liabilities created by controlling Executive orders and statutory provisions are incorporated into this agreement and are controlling.”*
 - ii. The limitation above shall not contravene requirements applicable to Standard Form 312, Form 4414, or any other form issued by a federal department or agency governing the nondisclosure of classified information.
 - iii. Notwithstanding provision listed in paragraph (a), a nondisclosure or confidentiality policy form or agreement that is to be executed by a person connected with the conduct of an intelligence or intelligence-related activity, other than an employee or officer of the United States Government, may contain provisions appropriate to the particular activity for which such document is to be used. Such form or agreement shall, at a minimum, require that the person will not disclose any classified information received in the course of such activity unless specifically authorized to do so by the United States Government. Such nondisclosure or confidentiality forms shall also make it clear that they do not bar disclosures to Congress, or to an authorized official of an executive agency or the Department of Justice, that are essential to reporting a substantial violation of law.

Term 41. Conference Spending

The Recipient shall not expend any funds on a conference not directly and programmatically related to the purpose for which the grant or cooperative agreement was awarded that would defray the cost to the United States Government of a conference held by any Executive branch department, agency, board, commission, or office for which the cost to the United States Government would otherwise exceed \$20,000, thereby circumventing the required notification by the head of any such Executive Branch department, agency, board, commission, or office to the Inspector General (or senior ethics official for any entity without an Inspector General), of the date, location, and number of employees attending such conference.

Term 42. Recipient Integrity and Performance Matters

A. General Reporting Requirement

If the total value of your currently active Financial Assistance awards, cooperative agreements, and procurement contracts from all federal awarding agencies exceeds \$10,000,000 for any period of time during the period of performance of this federal award, then you as the recipient during that period of time must maintain the currency of information reported to the System for Award Management (SAM) that is made available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIIS)) about civil, criminal, or administrative proceedings described in paragraph 2 of this term. This is a statutory requirement under section 872 of Public Law 110-417, as amended (41 U.S.C. 2313). As required by section 3010 of Public Law 111-212, all information posted in the designated integrity and performance system on or after April 15, 2011, except past performance reviews required for federal procurement contracts, will be publicly available.

B. Proceedings About Which You Must Report

Submit the information required about each proceeding that:

- i. Is in connection with the award or performance of a Financial Assistance, cooperative agreement, or procurement contract from the federal government;
- ii. Reached its final disposition during the most recent five-year period; and
- iii. Is one of the following:
 1. A criminal proceeding that resulted in a conviction, as defined in paragraph E of this award term and condition;
 2. A civil proceeding that resulted in a finding of fault and liability and payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more;
 3. An administrative proceeding, as defined in paragraph E of this term, that resulted in a finding of fault and liability and your payment of either a monetary fine or penalty of \$5,000 or more or reimbursement, restitution, or damages in excess of \$100,000; or
 4. Any other criminal, civil, or administrative proceeding if:
 - a. It could have led to an outcome described in paragraph B.iii.1, 2, or 3 of this term;
 - b. It had a different disposition arrived at by consent or compromise with an acknowledgment of fault on your part; and
 - c. The requirement in this term to disclose information about the proceeding does not conflict with applicable laws and regulations.

C. Reporting Procedures

Enter in the SAM Entity Management area the information that SAM requires about each proceeding described in paragraph B of this term. You do not need to submit the information a second time under assistance awards that you received if you

already provided the information through SAM because you were required to do so under federal procurement contracts that you were awarded.

D. Reporting Frequency

During any period of time when you are subject to the requirement in paragraph A of this term, you must report proceedings information through SAM for the most recent five-year period, either to report new information about any proceeding(s) that you have not reported previously or affirm that there is no new information to report. Recipients that have federal contract, Financial Assistance awards, (including cooperative agreement awards) with a cumulative total value greater than \$10,000,000, must disclose semiannually any information about the criminal, civil, and administrative proceedings.

E. Definitions

For purposes of this term:

- i. Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative proceedings, Civilian Board of Contract Appeals proceedings, and Armed Services Board of Contract Appeals proceedings). This includes proceedings at the federal and state level but only in connection with performance of a federal contract or Financial Assistance awards. It does not include audits, site visits, corrective plans, or inspection of deliverables.
- ii. Conviction means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of *nolo contendere*.
- iii. Total value of currently active Financial Assistance awards, cooperative agreements and procurement contracts includes:
 1. Only the Federal share of the funding under any Federal award with a recipient cost share or match; and
 2. The value of all expected funding increments under a federal award and options, even if not yet exercised.

Term 43. Interim Conflict of Interest Policy for Financial Assistance

The DOE interim Conflict of Interest Policy for Financial Assistance (COI Policy) can be found at <https://www.energy.gov/management/department-energy-interim-conflict-interest-policy-requirements-financial-assistance>. This policy is applicable to all non-federal entities applying for, or that receive, DOE funding by means of a financial assistance award (e.g., a grant, cooperative agreement, technology investment agreement, or other transaction authority) and, through the implementation of this policy by the entity, to each Investigator who is planning to participate in, or is participating in, the project funded wholly or in part under this Award. The term "Investigator" means the PI and any other person, regardless of title or position, who is responsible for the purpose, design, conduct, or reporting of a project funded by DOE or proposed for funding by DOE.

The recipient must flow down the requirements of the interim COI Policy to any subrecipient non-federal entities, with the exception of DOE National Laboratories. Further, the recipient must identify all financial conflicts of interests (FCOI), i.e., managed and unmanaged/unmanageable, in its initial and ongoing FCOI reports.

Prior to award, the recipient was required to: 1) ensure all Investigators on this Award completed their significant financial disclosures; 2) review the disclosures; 3) determine whether a FCOI exists; 4) develop and implement a management plan for FCOIs; and 5) provide DOE with an initial FCOI report that includes all FCOIs (i.e., managed and unmanaged/unmanageable). Within 180 days of the date of the Award, the recipient must be in full compliance with the other requirements set forth in DOE's interim COI Policy.

Term 44. Organizational Conflict of Interest

Organizational conflicts of interest are those where, because of relationships with a parent company, affiliate, or subsidiary organization, the Recipient is unable or appears to be unable to be impartial in conducting procurement action involving a related organization (2 CFR 200.318(c)(2)).

The Recipient must disclose in writing any potential or actual organizational conflict of interest to the DOE Grants Officer. The Recipient must provide the disclosure prior to engaging in a procurement or transaction using project funds with a parent, affiliate, or subsidiary organization that is not a state, local government, or Indian tribe. For a list of the information that must be included the disclosure, see Section VI. of the DOE interim Conflict of Interest Policy for Financial Assistance at <https://www.energy.gov/management/department-energy-interim-conflict-interest-policy-requirements-financial-assistance>.

If the effects of the potential or actual organizational conflict of interest cannot be avoided, neutralized, or mitigated, the Recipient must procure goods and services from other sources when using project funds. Otherwise, DOE may terminate the Award in accordance with 2 CFR 200.340 unless continued performance is determined to be in the best interest of the federal government.

The Recipient must flow down the requirements of the interim COI Policy to any subrecipient non-federal entities, with the exception of DOE National Laboratories. The Recipient is responsible for ensuring subrecipient compliance with this term.

If the Recipient has a parent, affiliate, or subsidiary organization that is not a state, local government, or Indian tribe, the Recipient must maintain written standards of conduct covering organizational conflicts of interest.

Term 45. Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment

As set forth in 2 CFR 200.216, recipients and subrecipients are prohibited from obligating or expending project funds (federal and non-federal funds) to:

- (1) Procure or obtain;
- (2) Extend or renew a contract to procure or obtain;
- (3) Exercise an option to procure
- (4) Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).
 - (i) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).
 - (ii) Telecommunications or video surveillance services provided by such entities or using such equipment.
 - (iii) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

See Public Law 115-232, section 889 for additional information.

Term 46. Participants and Other Collaborating Organizations

Prior to award, the recipient was required to provide the following information on participants and other collaborating organizations. If there are any changes to Participants and Collaborating Organizations information previously submitted to DOE, the recipient must submit updated information within thirty (30) calendar days after the end of the quarterly reporting period in which the change occurred:

A. What individuals have worked on the project

CONSULTANT further agrees to notify each of its affected employees in writing, upon commencement of performance of work and/or services covered by this AGREEMENT, of CONSULTANT'S obligation to pay a living wage as set forth in the CITY ordinance. This provision shall not be construed to limit CONSULTANT'S discretion to provide greater wages or benefits to its employees. Notwithstanding anything to the contrary, this provision shall not apply to work or services subject to state prevailing wage law codified at Labor Code sections 1720 *et seq.* and 1770 *et seq.*

SECTION 14. CONFLICTS OF INTEREST.

(a) CONSULTANT covenants that neither it, nor any officer or principal of its firm, has or shall acquire any interest, directly or indirectly, which would conflict in any manner with the interests of CITY or which would in any way hinder CONSULTANT'S performance of services under this AGREEMENT. CONSULTANT further covenants that in the performance of this AGREEMENT, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor without the express written consent of the City Manager. CONSULTANT agrees to at all times avoid conflicts of interest or the appearance of any conflicts of interest with the interests of CITY in the performance of this AGREEMENT.

(b) CITY understands and acknowledges that CONSULTANT is, or may be, as of the date of execution of this AGREEMENT, independently involved in the performance

of non-related services for other governmental agencies and private parties. CONSULTANT is unaware of any stated position of CITY relative to such projects. Any future position of CITY on such projects shall not be considered a conflict of interest for purposes of this section.

(b) CONSULTANT, its officers, employees, agents or subcontractors, shall not, without prior written authorization from the City Manager or unless requested by the City Attorney of CITY, voluntarily provide declarations, letters of support, testimony at depositions, response to interrogatories or other information concerning the work performed under this AGREEMENT. Response to a subpoena or court order shall not be considered "voluntary" provided CONSULTANT gives CITY notice of such court order or subpoena.

(c) If CONSULTANT, or any officer, employee, agent or subcontractor of CONSULTANT, provides any information or work product in violation of this AGREEMENT, then CITY shall have the right to reimbursement and indemnity from CONSULTANT for any damages, costs and fees, including attorneys fees, caused by or incurred as a result of CONSULTANT's conduct.

(b) If any action or proceeding is brought against INDEMNITEES by reason of any of the matters against which CONSULTANT has agreed to indemnify INDEMNITEES as provided above, CONSULTANT, upon notice from CITY, shall defend INDEMNITEES at CONSULTANT's expense by counsel acceptable to CITY, such acceptance not to be unreasonably withheld. INDEMNITEES need not have first paid for any of the matters to which INDEMNITEES are entitled to indemnification in order to be so indemnified. The insurance required to be maintained by CONSULTANT under SECTION 16 shall ensure CONSULTANT's obligations under this section, but the limits of such insurance shall not limit the liability of CONSULTANT hereunder. The provisions of this section shall survive the expiration or earlier termination of this AGREEMENT.

(c) If CONSULTANT's obligation to defend, indemnify, and/or hold harmless arises out of CONSULTANT's performance of "design professional" services (as that term is defined under Civil Code section 2782.8), then, and only to the extent required by Civil Code section 2782.8, which is fully incorporated herein, CONSULTANT's indemnification obligation shall be limited to CLAIMS that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the CONSULTANT, and, upon CONSULTANT obtaining a final adjudication by a court of competent jurisdiction, CONSULTANT's liability for such claim, including the cost to defend, shall not exceed the CONSULTANT's proportionate percentage of fault.

CITY has an interest in the qualifications of and capability of the persons and entities who will fulfill the duties and obligations imposed upon CONSULTANT under this AGREEMENT. In recognition of that interest, CONSULTANT shall not assign or transfer this AGREEMENT or any portion of this AGREEMENT or the performance of any of CONSULTANT's duties or obligations under this AGREEMENT without the prior written consent of the CITY. Any attempted assignment shall be ineffective, null and void, and shall constitute a material breach of this AGREEMENT entitling CITY to any and all remedies at law or in equity, including summary termination of this AGREEMENT. This final invoice shall be reviewed and paid in the same manner as set forth in SECTION 4 of this AGREEMENT.

SECTION 21. DEFAULT.

In the event that CONSULTANT is in default under the terms of this AGREEMENT, the CITY shall not have any obligation or duty to continue compensating CONSULTANT for any work performed after the date of default and may terminate this AGREEMENT immediately by written notice to the CONSULTANT.

SECTION 22. EXCUSABLE DELAYS.

CONSULTANT shall not be liable for damages, including liquidated damages, if any, caused by delay in performance or failure to perform due to causes beyond the control of CONSULTANT. Such causes include, but are not limited to, acts of God, acts of the public enemy, acts of federal, state or local governments, acts of CITY, court orders, fires, floods, epidemics, strikes, embargoes, and unusually severe weather. The term and price of this AGREEMENT shall be equitably adjusted for any delays due to such causes.

EXHIBIT A- SCOPE OF SERVICES

Project Scope of Work

Prior to Phase 1, CONSULTANT will sit down with CITY to agree to working norms, including methods for checking-in, file-sharing, and evaluating progress.

CONSULTANT perform the following services:

Phase 1: Identify Target Communities, Develop Community Outreach Plan, and Outreach Materials

Goals

1. Gather existing data and other intel about the demographics of the 12 city blocks and create a prioritization matrix.
2. Create a detailed community outreach plan, including communication strategies, timelines, and events.
3. Develop outreach materials.
 - a. Develop popular education materials that address building electrification and energy efficiency holistically; use effective messaging that we know works.
 - b. Become equipped to answer the questions we anticipate from the community based on previous research.
 - c. Craft participant survey to track differing levels of knowledge and likelihood to electrify from the outset to conclusion of the outreach period.
4. Identify trusted community anchors to amplify our reach.

Phase 2: Conduct Meaningful Community Outreach

Goals

1. Deploy multi-pronged approach to outreach, as carefully detailed in our Community Engagement Plan, beginning with door-to-door canvassing.
2. Administer survey to assess participant (a) knowledge of electrification and (b) willingness to electrify, at both the outset and conclusion of outreach activities.
3. Hold one or more of the following: 1-1 interviews, stakeholder meetings, a block party with hands-on demonstrations of electric appliances (e.g. open house, cooking lessons), or focus groups. In-person events will provide food, childcare, and language and disability justice.
4. Document resident concerns and work with CITY to address concerns through the design of subsequent phases.

Phase 3: Prepare for Electrification Assessments

Goals

1. Prior to the assessment, work with the building assessment consultants to develop and disseminate information via a virtual community workshop to answer

- questions about the assessments and their usefulness, including how they help homeowners and tenants understand energy waste, energy use, and needed electrical and building upgrades.
2. Develop a simple agreement granting permission for the free assessments and secure signatures from building owners.

Phase 4: Negotiations and Agreements

Goals

1. Participate in development of equitable electrification agreements and provide residents and building owners detailed explanations of every component of the agreement, to ensure they understand and feel comfortable about moving forward.
2. Share building electrification transition resources that can reduce the resident's share of the cost, such as eligible low- or no-cost financing and grant opportunities. Include measurements of electrification benefits for different types of housing and test financing mechanisms to understand how owners can access incentives and low-cost financing to cover their share of the cost-sharing with CITY.
3. Secure signed agreements.

Phase 5: Reporting

Goals

1. Gather replicable outreach and engagement materials and best practices throughout the project and put together a toolkit explaining how and when to use each tool.
2. Gather rigorous demographic, housing, and community needs data throughout the project to demonstrate how the program met priority community needs in order to be successful.
3. Draft a Final Pilot report that identifies key findings and generate impactful and actionable recommendations that help shape future programming.
4. Develop statewide policy recommendations and other municipal actions needed to support these types of efforts over the long term.
