<b>Total</b>			1,957,157	100,250	0	0	0	2,057,407
<b>Project Description</b>								
Various upgrades to the infrastructure and landscaping including field lighting upgrades, resurfacing of pathways, new picnic area, new play apparatus, new restroom building, new backstop, bleachers and other minor field improvements, and a new community garden area.								
<b>Time Frame</b>								
Construction began in April 2007 and was completed on April 2008. Council accepted the project performed by Hanford ARC as completed on June 16, 2008. Projected construction costs for FY08-09 are the PG&E work on relocation of the electrical meter, and the 5% retention with ARC.								
<b>Funding Status/Operating Budget Impact</b>								
All funding has been approved by the City Council. In January 2007, Council amended the Parks Rehabilitation budget to allocate an additional \$143,184 from Measure R - Ballfields, and \$381,657 from Measure F contingency for parks and recreation projects. In May 2008, the City received a \$25,000 grant from Stopwaste.org for its waste reduction and recycling efforts during construction and the effort to promote By-friendly landscaping practices.

<b>Project Description</b>									
Renovation projects including drainage system upgrades; picnic area, new restroom building, repaving of the basketball court and pathways, and landscaping upgrades.									
<b>Time Frame</b>									
Project completed Fiscal Year 2007-08.									
<b>Funding Status/Operating Budget Impact</b>									
Partial project funding available through the City's per capita allotment of \$162,000 from Proposition 12 and \$58,000 from Proposition 40 funds. In October 2005 the Council approved the remainder of funding from Measure F. Approximately \$10,000 in Measure F funds will be used for public art. These improvements should have no significant impact on the on-going maintenance of the park. The Stopwaste.org grant will be use for recycling bins

<b>Total</b>			1,468,159	114,500	0	0	0	1,582,659	
<b>Project Description</b>									
Complete the long-term recommendations for the park renovation project known as Phase II. Upgrades to the infrastructure and landscaping include renovation of the entry promenade, new landscaping and trees, perimeter sidewalk improvements, drainage, irrigation system and turf improvements on the north side of the park and public art. Structures and amenity improvements include replacement of all ball field elements and fencing, picnic area improvements, signage, benches and other amenities.									
<b>Time Frame</b>									
Construction began in April 2007 and was mostly completed on May 2008. Council accepted the project done by Hanford ARC as completed on July 21, 2008. Projected construction costs for FY08-09 are to cover for the 10% retention on the contract work with Hanford ARC and miscellaneous expenses occurred after June 30, 2008									
<b>Funding Status/Operating Budget Impact</b>									
Funds are available for the turf, backstop, irrigation and drainage systems through Measure R for Ball Fields and from Measure F for the remainder of the project including approximately \$25,000 for public art. On January 8, 2007 Council amended the Parks Rehab budget to allocate an additional \$143,184 from Measure R funds for ball fields and \$381,657 from Measure F contingency for parks and recreation projects. On May 2008, the City received \$25,000 grant funding from Stopwaste.org for its waste reduction and recycling efforts during construction and the effort to promote Bay-Friendly landscaping practices.

<b><u>Project Description</u></b>								
From Creekside Park: Upgrade the existing trail from Creekside Park to the top of the hill. To Pierce Street: Secure a trail access to Pierce Street via the undeveloped property on the west side of the hill, and/or through easements or other agreements.								
<b><u>Time Frame</u></b>								
No defined timeframe								
<b><u>Funding Status/Operating Budget Impact</u></b>								
This project is proposed as part of the Parks, Recreation and Open Space Master Plan that was adopted by Council in October 2004. Funds for this project are available in the Measure R Open Space fund. There is no significant maintenance impact in conjunction with the project.

<b>Project Description</b>								
Implement the Albany-Hill-Creekside Park Master Plan including signage, benches and vegetation management and consider the feasibility of a connection across Cerrito Creek to link with the Cerrito Creek Bay Trail connector.								
<b>Time Frame</b>								
There is no urgency to the timing of this project as long as the project is completed by 2011.								
<b>Funding Status/Operating Budget Impact</b>								
This project is proposed as part of the Parks, Recreation and Open Space Master Plan adopted by Council in October of 2004. Funds for this project are available in the Measure R Open Space fund. Maintenance impacts for these upgrades would not be significant.								

GROUP: Parks		TITLE: Pierce Street Park			MANAGER: Lieberman

<b>Total</b>			112,176	15,000	0	0	0	127,176
<b>Project Description</b>								
This project includes pursuing the acquisition of the site from Caltrans and developing the site into a neighborhood park. Estimated project costs are \$1,600,000 to develop the property not including any land acquisition costs. Actual park amenities will be determined through the public process.								
<b>Time Frame</b>								
Negotiations with Caltrans for acquisition of the property are ongoing. The funds budgeted for land acquisition are for professional services only. If acquisition of the property is successful, a CIP amendment could be made for future funding considerations for the public process, pre-design and design phases.								
<b>Funding Status/Operating Budget Impact</b>								
Council has authorized the acquisition of the property for \$580,000, which has been designated in Measure F funds. Maintenance costs for this facility are estimated at \$8,000 per acre or \$33,120 per year that would need to be budgeted for the Parks and Public Buildings maintenance budget.								

<b>GROUP: Parks</b>		<b>TITLE: Waterfront Trail</b>			<b>MANAGER: Chaney</b>

<b>Project Description</b>								
Upgrade the area lying within a portion of the right-of-way of Buchanan Street extension to include minor improvements such as a drinking fountain, additional landscaping, and an outdoor education seating area including tables and benches. There is also a need to replace the heavily damaged above ground irrigation system with a permanent below-ground system.								
<b>Time Frame</b>								
In 2007 a porta-potty was installed along the Waterfront Trail by the East Bay Regional Park District, which is also maintaining the facility. Albany Public Works built the foundation and disabled access ramp to the porta potty. No time frame has been set for the remaining improvements due to potential funding from grants or oil spill remediation requests.								
<b>Funding Status/Operating Budget Impact</b>								
Cost estimates for these improvements are \$75,000 for a drinking fountain, and seating area as recommended in the Parks and Recreation Master Plan. An additional \$75,000 is needed to fund the irrigation system upgrades. This project, due to its proximity to the East Shore State Park, may be an ideal candidate for future grant funding. Other potential maintenance costs would be litter removal and repair/replacement of the tables, benches and drinking fountain. These costs would need to be budgeted in the Parks and Public Building Maintenance budget. Currently there is no funding available for these improvements.

<b>Total</b>		4,530	84,391	0	0	0	0	88,921
<b>Project Description</b>								
This is a City owned building located at 850 Masonic Avenue and houses the Albany Pre-School Program. The building is in need of seismic modifications including attaching the building to the foundation on the north side of the building. This project has been identified as a priority in the Parks, Recreation and Open Space Master Plan.								
<b>Time Frame</b>								
Construction to take place during the 08/09 fiscal year.								
<b>Funding Status/Operating Budget Impact</b>								
This project is part of the Parks, Recreation and Open Space Master Plan. Funds from Measure F will be used for this project. Initial plans were to use the city's per capita funds from Proposition 40, however, this project did not qualify. Part of Measure F funds will come from funds available for the Veteran's Memorial Building ( \$44,906) that will not be used during the next two years and will depend on a ballot measure for further work

<b>Project Description</b>									
Acquire the building from Alameda County and complete repairs/upgrades necessary to retrofit the building for use as a community recreation center. In January 2008, the building analysis report was updated from the previous report completed in 2006. The report identified seismic, code and ADA modifications necessary as well as other minor modifications at an estimated cost of \$6.8 million. Adding other soft costs and contingencies, the total project would be \$10.2 million.									
<b>Time Frame</b>									
Dependent on securing funding.									
<b>Funding Status/Operating Budget Impact</b>									
No budget impact at this time. There would be operating, maintenance and capital improvement costs if the building is acquired.

<b>Project Description</b>								
BART's seismic retrofit project will have a substantial impact on the landscaping and usability of the Greenway, so the City has engaged design consultants to provide BART concept plans for the Greenway's future. BART's more specific needs now require more detailed planting and irrigation plans. BART and the City have been negotiating the financial burden of implementing the new concept plan as part of BART's construction and restoration on the Greenway.								
<b>Time Frame</b>								
Completion of the consultant's design work will occur in the Fall of 2008. BART's seismic retrofit work is slated to begin in 2009.								
<b>Funding Status/Operating Budget Impact</b>								
All funding is provided by Measure F 2002 bonds.

<b>Project Description</b>								
The City installed 43 disabled access ramps throughout the City during FY 2004/05 and 2005/06. Modifications to the access ramps at Masonic and Marin avenues were completed in 2007-08. Funds allocated in FY 2008-09 budget will provide for approximately 40 access ramps citywide. Refer to Pierce Street Rehabilitation project for information on access ramps proposed for that street.								
<b>Time Frame</b>								
Design work and construction to be completed in 2008-09.								
<b>Funding Status/Operating Budget Impact</b>								
Funding source includes CDBG funds: \$74,844 from 2007-08 and \$70,429 from 2008-09.

<b>Total</b>			15,189	300,000	0	0	0	315,189	
<b>Expenditures</b>									
<b>EXPENDITURES</b>									
Pre-design			15,189					15,189	
Preliminary Engineering (35% PS&E)				150,000				150,000	
Traffic Operations and Analysis				50,000				50,000	
Environmental Work				70,000				70,000	
Land Survey				30,000				30,000	
<b>Total</b>			15,189	300,000	0	0	0	315,189	
<b>Project Description</b>									
Phase I of this project includes 35% PS&E, environmental work and traffic analysis for the construction of a bicycle/pedestrian path along Marin Ave. and Buchanan St. from the intersection of San Pablo Ave. to the Buchanan overcrossing. Phase II is development of 100% plans and construction.									
<b>Time Frame</b>									
Design to occur during FY 2007-08 and FY08-09. The City will seek grant funding for the completion of Phase II (100% plans and construction), which is estimated at \$1.5 million. Construction is expected between FY 09-10 and FY10-11.									
<b>Funding Status/Operating Budget Impact</b>									
The City obtained a grant from ACTIA for \$266,000 and another grant from MTC for \$15,000 for Phase I. The ACTIA grant requires a match of 20 percent. Originally, Measure F funds were authorized by Council as match for Phase I in the amount of \$34,000. The City's FY 08-09 TDA allocation in the amount of \$13,569 will also be used as local funds applied to this project. In addition, the City is awaiting approval of a TETAP grant application, in the amount of \$15,000, to be used for part of the traffic analysis for Phase I. If successful, this could offset the \$50,000 for this line item. Additional grant funding will be sought for the construction phase of this project (Phase II), which is estimated to be \$1.5 million.

<b>Total</b>			126,380	37,000	217,000	29,425	175,327	0	585,132
<b>Project Description</b>									
Cerrito Creek bike trail project will connect the Ohlone Greenway and the Bay Trail. Planning involves Albany, El Cerrito, and Richmond. The first phase involves construction of a Class I bike path generally abutting the Pierce Street soundwall. The second phase will involve either a pedestrian trail along the creek along the north side of Bayside Commons and Creekside Park, or a Class I bike path through Pierce Street Park.									
<b>Time Frame</b>									
The feasibility studies were completed in 2004-05 and 2005-06 and accepted by the City Council. These studies outlined a concept plan to resolve design challenges for the more difficult trail segments. The Class I Pierce Street segment will be designed in 2008-09 and constructed in 2009-10. In 2008-09, discussions will be held with representatives from Bayside Commons, Pacific East Mall, Cities of Richmond and El Cerrito, and the Urban Creeks Council regarding mutual goals for bicycles, access, and restoration. Construction is planned for 2011-12, and additional grant funding will likely be required to complete the project. As an alternative, in 2008-09 it is anticipated that Caltrans and Albany will agree to the extension of the bike path through Pierce Street. Preliminary planning has begun and could be finalized in 2008-09, with construction in 2010-11.									
<b>Funding Status/Operating Budget Impact</b>									
A \$100,000 grant was received through ABAG Bay Trail funds and used for pre-design. The first phase of the Pierce Street bike path will cost about \$234,000. Although a total of \$471,000 is allocated through Measure F for project implementation, additional grant monies will be sought to off-set anticipated additional costs. Budget assumes that the path will be constructed together with the Pierce Street Pavement Rehabilitation Project (P51).									

GROUP: Streets		TITLE: Eastshore/Buchanan Signals			MANAGER: Leptien

<b>Project Description</b>									
Installation of traffic signal and related interconnections at the intersection of Eastshore Frontage Road and Buchanan Street. This included preparation of a study for Caltrans' review and approval in order to interconnect the traffic lights.									
<b>Time Frame</b>									
The pre-design work involving the study was completed and submitted to Caltrans in spring 2006. Since that time, additional information has been forwarded and discussed with Caltrans in response to Caltrans questions. Caltrans approval or denial is expected in summer 2008.									
<b>Funding Status/Operating Budget Impact</b>									
Target has contributed \$70,000 to the project, Petsmart has contributed \$19,700. Additional funds for construction will come from Reinvestment Agency, to be reimbursed by traffic mitigation fees from additional development on Eastshore Highway. In the event Caltrans approval is received, staff will return to the City Council with a funding proposal for project implementation.

<b>Project Description</b>								
Phase I of the Marin Avenue traffic calming project is complete. Results from project monitoring showed that the project had accomplished the goal to calm traffic, however minor adjustments have been identified that primarily involve paint. Phase II would provides \$20,000 for minor restriping authorized by the Traffic & Safety Commission and the City Council, and \$20,000 for a bulb-out at the South/East corner of Masonic & Marin.								
<b>Time Frame</b>								
Phase I was completed in Fiscal Year 2005-06. Phase II design work could begin in 2008-09 and construction completed in 2009, if it is determined that the project should be pursued.								
<b>Funding Status/Operating Budget Impact</b>								
Phase I was funded through TFCA funds, Measure F funds, and Measure B (ACTIA) funds. Measure F funds are allocated for Phase II, however staff will seek grant funds to help off-set Measure F costs.

<b>Project Description</b>								
<p><b>Initial Project Description:</b> Stop signs were in installed at approximately seven intersections during 2005-06. Red curbs were installed at Pomona/Thousand Oaks and Brighton/Kains. Red curbs are planned for Romona/Thousand Oaks and Washington/Adams. Permanent speed humps were installed at Sonoma/Venture (Project S49), and are planned for Ordway and Carmel. Similar projects will be undertaken in future years, but there are no specifically named projects as of the date of preparation of this report.</p>								
<b>Time Frame</b>								
<p>Virtually all the stop signs recommended in the Traffic Management Plan have been installed. Speed humps at Sonoma/Ventura were installed during the summer of 2006. Permanent speed humps on Ordway and Carmel are slated for installation in 2008-09. The remaining red curbs will be installed during 2008-09.</p>								
<b>Funding Status/Operating Budget Impact</b>								
<p>Measure F funding has not been used for these projects prior to 2008-09, leaving the original Measure F allocation of \$32,500 available for future projects..</p>

Project Description								
<p>1) Continued implementation of a Citywide sidewalk repair program whereby City reimburses a portion of the repair when a city street tree is involved in the damaged area. Note: Citywide program to be curtailed during Pilot program. 2) Pilot residential sidewalk repair program involving about 75 sites marked by the City primarily along Marin Avenue. Residents who participate will reimburse City for construction (concrete and labor) costs; however City will pay for any necessary arborist review, hire the concrete contractor and manage the contract. This is a pilot program because program success depends upon resident participation.</p>								
Time Frame								
Pilot program to begin in FY08/09.								
Funding Status/Operating Budget Impact								
Funded from L&LD and Waste Management funds. If the pilot program proves successful, funds are available to expand the program.

<b>Project Description</b>									
Project includes the installation of a new traffic signal and controller with protected left turn heads and count down signals at the intersection of Buchanan and Jackson. It also includes: installation of two speed feedback solar signs on Buchanan St.; Zebra striped crosswalks along the route to Ocean View school; and ramps at Madison and Solano. An educational component is included for OV school in the amount of \$19,400.									
<b>Time Frame</b>									
Design, installation, and construction to occur in FY 2008-09.									
<b>Funding Status/Operating Budget Impact</b>									
A grant of \$293,760 has been received from the State Safe Routes 2 School program which pays 90% of the construction, construction management and educational component. The City's 2008-09 ACTIA Measure B funds for bicycle/pedestrian purposes (\$40,000) will be used as part of the local match. The additional \$12,240 needed for right-of-way, and the educational component match, will be funded through Gas Tax monies. Grant opportunities will be sought for possible additional features.

<b>Project Description</b>								
Seismic retrofitting of existing Fire, Police, and City Hall facilities; renovation of Fire Station throughout and PD (including ADA accessible restroom). New roof and heating throughout required as part of seismic work. New Emergency Operations Center, and associated site work. Project includes relocation of all Civic Center personnel to rented office space (405 Kains, 979 San Pablo Avenue) and temporary modular set up (Police and Fire to Monroe Street, at Jackson St.). Includes cost of moving back in and dismantling Monroe temporary facilities. <i>This schedule includes relocation costs of \$x,xxx,xxx recorded in Fund 842, Project Q25.</i>								
<b>Time Frame</b>								
Construction commenced in May 2008 and is expected to complete about year end 2009.								
<b>Funding Status/Operating Budget Impact</b>								
The project extends lighting improvements throughout Police and Fire and replacing existing heating facilities due to damage from seismic upgrade work. New lighting and heating will be considerably more energy efficient than old. New building areas and associated lighting and air conditioning (of limited

<b>Project Description</b>								
A goal of the City is acquisition of a permanent maintenance center to replace the leased facility at 548 Cleveland Avenue.								
<b>Time Frame</b>								
Exploratory work is on-going. Specific tasks will be scheduled as potential sites are designated.								
<b>Funding Status/Operating Budget Impact</b>								
The 1989 Lease Revenue Bonds provided funds for construction or acquisition of a community center and a maintenance center. Funds available for the maintenance center are approximately \$400,000 plus the anticipated use of the funds now used for lease payments at the current location.

<b>Project Description</b>									
1) Complete investigation into limits of damage in the building. 2) Design repairs. 3) Make repairs to stair tower and areas of the building damaged either by water entry or from the work of investigating the building.									
<b>Time Frame</b>									
Intention is that the work will be completed prior to winter rains fall 2008.									
<b>Funding Status/Operating Budget Impact</b>									
Apparent causes have been found for the various areas of water damage in the stair tower and building exterior walls, and significant cost recovery is expected through legal action underway. Nevertheless, it will be necessary to fund the balance of the analysis and repair work for an indefinite period of time until the case is resolved.									

GROUP: Buildings		TITLE: Fire Engine			MANAGER: McGinn

<b>Total</b>			175,340	500,000	500,000	500,000	500,000	2,675,340
<b>Project Description</b>								
This is a long term project to correct failing sewer lines throughout the City in accord with the Sewer Compliance Plan. Project P20 is used to record expenditures that are common to the entire sewer system.								
<b>Time Frame</b>								
The project is on-going and will continue beyond the five years of this capital improvement plan.								
<b>Funding Status/Operating Budget Impact</b>								
The sewer compliance program is funded by the City's sewer service charge. Currently these revenues are used for current sewer operations and maintenance, debt service for the 2004 Sewer Revenue Bonds, and capital projects. It is anticipated that the sewer service charge will generate \$500,000 per year for capital projects through 2013.

<b>Project Description</b>									
Creek restoration project along Codornices Creek, between Kains and San Pablo Avenues, adjacent to the Creekside Apartments.									
<b>Time Frame</b>									
Conceptual design plans are complete. Offer to dedicate access and maintenance easement from Creekside Apts. to City has been recorded. Final design and construction documents will be prepared in FY 2008-09. This work will also include flood modeling, bridge layout, structural wall evaluation and design, park design, and permit coordination. Estimated cost of the work is approximately \$110,000.									
<b>Funding Status/Operating Budget Impact</b>									
No construction money is available at this time. Design and engineering work is being funded from Measure R monies, and grants will be sought for construction. Ultimate construction costs are estimated at between \$250,000 and \$350,000.

<b>Project Description</b>									
Planning, design, environmental clearance, and construction of a creek restoration project and pedestrian/bicycle trail along the reach of Codornices creek between the UPRR tracks on the west, and San Pablo Avenue on the east. This is a joint project in conjunction with the City of Berkeley and the University of California.									
<b>Time Frame</b>									
This is a multi-year phased project. Planning and conceptual design occurred over a 5 year time span, and was completed in 2004. Construction phases are as follows: Phase 1 (UPRR tracks to 5th Street) was completed in Jan. 2005. Phase 2 (5th Street to 6th Street) was completed in Fall of 2006. Phase 3 (6th to 8th Street) has begun in 2008 and is scheduled to be completed in 2010. Phase 4 (8th to 10th) and Phase 5 (10th to San Pablo Avenue) are not yet funded.									
<b>Funding Status/Operating Budget Impact</b>									
The project is funded by multiple sources, as noted in the Funding Section above.

<b><u>Project Description</u></b>								
T01: In 2005-06 engineering plans were completed for a new 24" storm drain from Neilson Street to Santa Fe Avenue to Codornices Creek. In 2008 it was determined that micro-tunneling under Neilson Street to Codornices Creek was the preferred method of construction for this project and in June 2008 a contract was awarded to Ranger Pipelines for \$2,129,860. In addition to the storm drain work to resolve flooding problems, sanitary sewer work will be performed under this contract.								
<b><u>Time Frame</u></b>								
Construction will commence in July 2008 and will be completed by the end of the year.								
<b><u>Funding Status/Operating Budget Impact</u></b>								
Measure F-2006 funds were used for planning and design. A 10 year financing municipal lease from Eltekon Capital will finance the construction. Lease payments will be made from the Street Paving and Storm Drain Facility Improvement Tax (Measure F-2006) and sewer service fees. The annual lease payment will be \$324,318.

<b>Total</b>			157,098	100,000	100,000	100,000	100,000	100,000	657,098
<b>Project Description</b>									
In early 2006, the city engineer produced a list of miscellaneous storm drainage-related nuisances. This project would address ponding and inadequate gutter capacity at Ordway, Pomona, Cerrito and other locations throughout the city.									
<b>Time Frame</b>									
The project is on-going and will continue beyond the five years of this capital improvement plan.									
<b>Funding Status/Operating Budget Impact</b>									
Measure F-2006 will provide funding for these projects and others on a prioritized basis.

<b>Project Description</b>									
This site follows the BART tracks that run along Masonic Avenue. This project involved the installation of light fixtures on the underside of the BART tracks to replicate the existing lighting installation along the BART tracks in El Cerrito.									
<b>Time Frame</b>									
Project completed Fiscal Year 2007-08.									
<b>Funding Status/Operating Budget Impact</b>									
This project was constructed concurrently with Project S43 - Ohlone Greenway Bike Path. Upon completion it was estimated that 59% of the combined cost related primarily to the lighting project and 41% related to the bike path. Funding for the projects was provided by: Safe Route to Schools MTC, Transportation Development Act, L&LD 1988-1, and Measure F 2002.

Buchanan Street signage								
<b>Total</b>			106,407	0	0	0	0	106,407
<b>Project Description</b>								
New landscaping was installed for the Buchanan Street medians, from freeway to Madison Street, and the irrigation system was repaired. In 2008, the remaining Buchanan medians west of San Pablo Avenue were completed.								
<b>Time Frame</b>								
The Buchanan medians project was completed in 2005/06. The remaining SPA median was completed in 2008.								
<b>Funding Status/Operating Budget Impact</b>								
L&LD Funds would be used for future work. Initial design for the project was funded by the Alameda County Waste Management Authority and Recycling Board (now StopWaste.org) through their "Bay Friendly Landscaping Project, " and their design guidelines were followed. LLAD funds paid for construction. An additional grant of \$20,500 was received from StopWaste.org construction. Of this, \$15,000 was for construction and \$5,500 was for maintenance over the two year period from 2006 to 2008.

<b>Description</b>								
Construction			185,846					185,846
<b>Total</b>			185,846	0	0	0	0	185,846
<b>Project Description</b>								
Construction of a bicycle/pedestrian path under I-80/580 that gives pedestrians and bicyclists an alternative route to the Bay Trail that avoids crossing the freeway ramps. In 2005/06, engineered plans were submitted to Caltrans (land owner) for encroachment permit purposes and to the State Architect's Office for review.								
<b>Time Frame</b>								
Fiscal year 2005/06 - design; 06-07 permits/construction. Project completed Fiscal Year 2006-07.								
<b>Funding Status/Operating Budget Impact</b>								
The City was awarded \$75,000 in Measure B ACTIA discretionary funds that must be applied only to bicycle and pedestrian projects. Measure F funds (\$35,000) provided the City's match. It was originally assumed that Measure F funds would be needed to design and build the project. Thus, the ACTIA grant helped extend the City's Measure F funds.
